Re: Pending Notice of Violation; Notice to Cease and Desist Diversion Water

To whom it may concern,

I am writing this letter as a follow-up to the conversation I had with Tim Luke, on October 1, 2012 concerning our pending notice of violation. Tim asked that I send a letter documenting the summary of our conversation.

On August 30, 2012 we pulled the pump out of our "West Well" which is located in the NESESE of 12S33E of Section 2, to do some work on the pump. Our crop growing season was complete by this time. On September 18th we started the 108.9 acre pivot to do some fall irrigation in preparation of the 2013 crop year. The water was being pumped from the "East Well" located in the NENWSW of 12S33E Section 1. The pivot made two revolutions of 72 hours and concluded on September 24th and has remained off since.

We are in the process of filing for a transfer of permissible place of use. You should be receiving the application soon.

Thank You,

Ryan Cranney
