Re: Water Right 27-11919

Dear Mr. Cefalo,

As per our recent telephone conversation, our water right # 27-11919, is currently through a ditch across Wolverine Rd. to our property. That ditch initially starts on our property and diverts water from Wolverine Creek. We would like to dry up the ditch, as it is now causing a hazard with water overflowing onto the road resulting in icy conditions. We wish to move our point of diversion from across the road (Northwest) to our property (Southeast) and continue to utilize our water directly from Wolverine Creek, which courses through our property. In the long run, this would preserve much of the water that is lost as it courses $\frac{1}{4}$ mile before it is used as well as keeping it from overflowing onto the road.

Please let me know if there any concerns in this regard or if any paper work is required.

Thank you for your attention to this request.

Sincerely,

Louis Morales, Jr.
