RE: Water Appropriation Permit 74-15613

Dear Mr. Whittaker,

IDWR has received correspondence from Brian Higgs in connection with permit 74-15613. Mr. Higgs provided evidence of the purchase of a data logger and a description of the proposed diverting works as requested by the department.

Please note that it is your responsibility to notify the Department next spring, **prior to diverting water**, when the measuring device with data logger is installed so the Department may conduct a field examination to verify the beneficial use established in connection with your permit. Diversion of water before installing the measuring device with data logger will most likely result in the permit being voided.

IDWR will download that data collected by the data logger most likely through the activities and operations of the watermaster of the water district.

Respectfully submitted,

Craig L. Saxton  
Water Rights Supervisor

Cc: Nick Miller, IDWR
