WATER RIGHT NO. 27-07582

FOR DEPARTMENT USE ONLY

Preliminary check by _____ Fee = 100.⁰⁰ Received by JS # E038199 Date 11-20-2012

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 27-07582 with the following:

CONDITIONS OF APPROVAL

1. The mitigation plan associated with this right provides for the initial one time fill of the pond with 8.8 acre-feet. Subsequent annual refill of the pond up to 8.8 acre-feet is authorized by this right when deliverable in priority. To restore the pond to its maximum storage elevation because of fluctuations in the water level during periods when water is not deliverable under this right will require the permit holder to provide a mitigation plan for the additional storage volume.
2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 27.
3. The pond(s) established by the storage of water under this right shall not exceed a total capacity of 8.8 acre-feet or a total surface area of 1.0 acre(s).
4. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.

Witness my hand this 11th day of December, 2012.

for **GARY SPACKMAN**
Director
