RE: Assignment of Permit for Water Right(s): 63-8362

Dear Water Right Holder(s):

The Idaho Department of Water Resources received a request for an Assignment of Permit for the above mentioned water right permit. Water right permit no. 63-8362 is a decreed right in the Snake River Basin Adjudication process and does not require an assignment of permit. The current owners are Ivan and Dorothy Todd.

If 63-8362 is the correct water right, please complete and return the enclosed Notice of Change in Water Right Ownership with the correct documents. After reviewing your request, the water right permit number that Hultz Farms Inc meant to assign to you could possibly be 63-8682. If this is correct, a new assignment of permit will be required with the correct water right permit no. and a notarized signature. I have enclosed a form for your convenience. No additional fee is required for either the Notice of Change of Water Right Ownership or the Assignment of Permit.

I am returning the Assignment of Permit you sent to us. I am also enclosing a water right report and partial decree for 63-8362 and a water right permit report for 63-8682.

If you have any questions regarding this letter, please contact me at 208-287-4942. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Jean Hersley".
