Re: Extension Request Filed for Permit No. 72-16699

Dear Permit Holder(s):

The Department is in receipt of your extension request filed on September 14, 2012, for which you have requested a (2) year extension of time for submitting proof of beneficial use for the above referenced permit. You are allowed an initial (5) year development period. You were allowed a (2) year development period under the permit, and (3) more years for development under a previous extension request. You have exhausted the initial (5) year development period allowed. After the initial (5) year development period, you are only allowed to file one request for extension of time for up to (5) more years.

You could ask for your extension request to be modified to reflect the full (5) years allowed, if you find it necessary. In order for me to make any changes to your form, I would need a written response from you requesting that your extension request form be modified to reflect an end date of October 1, 2017. .

If you decide to leave your extension request as a (2) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

Please respond with the extension end date you would prefer.

Sincerely,

Darla Block
