DEPARTMENT OF
WATER RESOURCES

Dear Emalee,

I have searched my records extensively and can not find the records of water rights on the Tahoe Ranch property.

Possibly I had sent them to my former farming partner, Trent Hatch, at Kamiah. He is currently in Alaska and will not return for a month or so, ~~at his return~~. I will check to see if indeed I did give those records to him at the time of my selling my share of that property to him in 2000.

Actually, I can not find the rest of my water rights records which might mean that I moved them all to a newer location and can not remember doing it. I have encountered that problem before.

If they surface, I will forward them to you.
~~my apologies~~ for not finding them

Sincerely, Ken Steigers
