WATER RIGHT NO. 37-22767
As Modified by Transfer No. 78180

CONDITIONS OF APPROVAL

1. The actual diversion rate of this right is .068 cfs.
2. This right is a split from former right 37-539E
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
4. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
6. Rights 37-8421, 37-12842 and 37-22787 when combined shall not exceed a total diversion rate of 0.03 cfs per acre, and the irrigation of 3.5 acres.
7. Place of use is located within Lot 30, Hyndman Peak Subdivision.
8. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
9. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

RE: Transfer No.: 78180
Water Right No(s): 37-22767

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's homepage on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-736-3033.

Sincerely,

A handwritten signature in black ink, appearing to read "Allen Merritt". The signature is stylized with a large initial "A" and a cursive "Merritt".

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: November 29, 2012
To: Transfer 78180 File
From: William Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes changing two authorized points of diversion to a new point of diversion for water right 37-22767, a 0.068 cfs East Fork Wood River irrigation right used to irrigate 1.8 acres on lot 30 in the Hyndman Peak Subdivision. The new point of diversion is moving approximately 0.7 and 0.5 miles downstream of the existing diversions, and is located on lot 27 in the Hyndman Peak Subdivision approximately 6.7 miles north and 0.7 miles east of Hailey. The owners of lot 27 have provided a written agreement, signed by all parties, to allow the owners of lot 30 to divert water from lot 27 and to retain all rights and ownership of water right 37-22767 which is appurtenant to lot 30. Point of diversion and place of use are located in Water District 37 and watermaster comments were solicited.

Idaho Department of Fish and Game comments were solicited and in response to their concern for the potential entrainment or impingement of salmonids, a condition was placed on the water right requiring the right holder to comply with all fish screening requirements of Idaho Department of Fish and Game.

It should be noted that Workflow rounds the flow rate to 0.07 cfs but the actual rate is 0.068 cfs and there is a condition on the water right record that specifies that the actual diversion rate is 0.068 cfs. This right has been conditioned to limit irrigation to 0.03 cfs per acre and 3.5 afa at the field headgate when combined with all other rights.

Overlap analysis finds two other rights appurtenant to this property, 37-12842, for 0.020 cfs stockwater and 0.04 cfs domestic; and 37-8421, a 0.09 cfs ground water irrigation right for 3.0 acres. A combined limit condition has been placed on this water right record to limit the diversion rate to 0.03 cfs per acre and limit irrigation to 3.5 acres.

- **Authority to File:**
IDWR records indicate the applicants currently own the water right involved in the transfer. A contract of agreement was provided allowing diversion from lot 27.
- **Water Right Validity:**
Water right 37-22767 was decreed in the SRBA on 6/29/2010. Home site and lot are visible in 2011 aerial imagery and 2010 satellite imagery and appear to be irrigated.
- **Injury to Other Water Rights:**
Water right 37-22767 presently shares points of diversion and ditches with a number of water rights. Transfer of water from shared diversions and ditches may have an impact on other water rights. An on-site inspection of the ditches indicated any impact to other

water users is not anticipated.

- **Enlargement of Use:**
None anticipated. No change to place of use.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

**RE: Applications for Transfer of Water Rights: 78191, 78192, 78193, 78130, and 77869
Application for Permit 47-17588**

Dear Denise:

Idaho Department of Fish and Game (IDFG) staff has reviewed the above listed applications for transfer of water rights associated with the East Fork Wood River in Blaine County and the Raft River in Cassia County and the new application for a water right from Deep Creek in Twin Falls County.

The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects on wildlife and wildlife habitat and how any adverse effects might be mitigated. It is not the purpose of IDFG to support or oppose this proposal. Resident species of fish and wildlife are property of all Idaho citizens, and IDFG and the Idaho Fish and Game Commission are expressly charged with statutory responsibility to preserve, protect, perpetuate and manage all fish and wildlife in Idaho (Idaho Code 36-103(a)). In fulfillment of our statutory charge and direction as provided by the Idaho Legislature, we offer the following comments and recommendations.

Hyndman Peak Subdivision, East Fork Wood River, Blaine County

It is our understanding applications 78191, 78192, 78193, and 78180 are associated with four lots in the Hyndman Peak Subdivision and represent a request to add a new point of diversion downstream of an existing point of diversion. The existing diversion will continue to deliver water to other legal water rights within the same subdivision. Consumptive water use will remain unchanged with a small potential for water savings associated with delivery efficiency.

An additional downstream diversion will result in some water benefits in the river reach between the existing and proposed point of diversion. However, an additional instream pump represents an increased risk of entrainment or impingement for resident salmonids. We recommend the Applicant(s) screen the water intake structures with 1/4" mesh to avoid entraining or impinging juvenile fish and divert (pump) from a location away from potential fish refugia like stream banks with overhanging vegetation or near accumulations of large woody debris.

Keeping Idaho's Wildlife Heritage

Raft River, Cassia County

It is our understanding the application for transfer represents a request to add a new point of diversion downstream of an existing point of diversion (77869). The additional point of diversion will allow for more efficient delivery of water. The existing diversion will continue to deliver water to other legal water rights and consumptive water use will remain unchanged with a small potential for water savings associated with delivery efficiency.

An additional downstream diversion will result in some water benefits in the river reach between the existing and proposed point of diversion. While the delivery method (diversion system) for the new diversion was unclear from the application, an additional instream pump represents an increased risk of entrainment or impingement for resident salmonids. If an instream pump is the intended delivery method, we recommend the Applicant(s) screen the water intake structures with 1/4" mesh to avoid entraining or impinging juvenile fish and divert (pump) from a location away from potential fish refugia like stream banks with overhanging vegetation or near accumulations of large woody debris.

Deep Creek, Twin Falls County

It is our understanding the applicant wishes to secure a new water right (47-17588) that diverts waste-water from an existing irrigation return that runs through the Applicant's property. The purpose of the application is to provide irrigation water for trees. If approved, the new water right would not result in an additional irrigation return to the Deep Creek drainage. Approval of the new water right should have minimal negative impacts on fish and wildlife resources in the area.

Thank you for the opportunity to review the applications. If you have any questions please contact Mike McDonald, Environmental Staff Biologist, at this office.

Sincerely,

H. Jerome Hansen
Magic Valley Regional Supervisor

NOTICE OF PROPOSED CHANGE
OF WATER RIGHT
TRANSFER NO. 78180

TERI SZOMBATHY and SANDOR SZOMBATHY, PO BOX 2996, KETCHUM, ID 83340 has filed Application No. 78180 for changes to the following water rights within BLAINE County(s): Right No(s). 37-22767; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes changing two authorized points of diversion to a new point of diversion for a 0.07 cfs East Fork of the Wood River irrigation right used to irrigate 1.8 acres. The new point of diversion is moving approximately 0.7 and 0.5 miles downstream of the existing diversions, and will be located on lot 27 of the Hyndman Peak Subdivision located approximately 6.7 miles north and 0.7 miles east of Hailey.

For additional information concerning the property location, contact Southern Region office at (208) 736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St, Suite 200, Twin Falls ID 83301 together with a protest fee of \$25.00 for each application on or before November 19, 2012. The protestant must also send a copy of the protest to the applicant.
