

MEMORANDUM

Date: November 23, 2012
To: Water Right File 57-11711
From: Craig Saxton
Re: POU - Pasture Land

4 acres of irrigated ground in the SWSW of Section 25 was included on this right. The 4 acres is located on the east side of Hart Creek when the majority of the place of use is on the west side of Hart Creek. I spoke with Dan Nelson (co-field examiner on July 12, 2012) to inquire how the water gets across Hart Creek and why does the field look different than the other fields recommended under this right. Dan explained that water is piped across the creek to the 4 acres in question and that the field is pasture ground used for calving and is irrigated when needed. The 4 acres is irrigated from the same delivery system that irrigates the rest of the POU developed in connection with this right.
