F. NARRATIVE/REMARKS/COMMENTS

We received a change of ownership for this permit and are moving forward with licensing. The original permit holder is deceased (death notice provided by attorney) and this license is for the portion of the estate retained by the family. We have communication from Jim Speck on behalf of Christl Colven that she is the current owner but no ownership change has been filed so we have to leave John F. Colven's name on the license until the correct paperwork is filed showing her name. Records Memo No. 9 requires we have an acceptable document showing conveyance. The death notice is not sufficient to confirm conveyance of Mr. John Colven's holdings to Christl Colven.

Colven sold the irrigation component in 1994 and that is being licensed separately under 37-22794.

IDWR's GIS data reflected a nominal 40-acre tract as the place of use. Closer inspection of the application for permit and the map accompanying that application show the intent of the application was to file for use on H.E.S. 329. I have attached a screenshot of H.E.S. 329 to this document. POU is on the north-central side of H.E.S. 329. I changed the spatial data to reflect the exact location of the house and taxlot for domestic and stockwater, respectively.

Have conditions of permit approval been met? ☒ Yes ☐ No
