Notice

We the undersigned hereby give notice that we claim the right to appropriate 1000000 Thousand inches of water under a four inch pressure out of the waters of the Snake River for irrigating, mining, and other beneficial use, to be conducted through a ditch twenty 20 feet wide and two feet deep with a fall of three feet 5.168 and one hundred and sixty eight feet to the mile

We further claim the right of way for said ditch.

To commence notice on South on South Side of Snake River and North of Erie Road's place running in a westerly direction to the distance of Eighteen 18 of twenty miles

C. H. Stevenson
Pueblo Valley Oct 25. 1882

Recorded at request H. B. Miller

CLARENCE A. PLANTING, Recorder
By Margaret Putnam, Deputy

Notices

Whereas, it is the intention of the undersigned to
construct a water ditch, beginning at a point on the
S. H. Co. & D. Co. Sec. 15, T. 4 N., R. 10 E.
and on a stretch of the 14th line
and more particularly described as follows,
to wit:

[illegible]

was completed in 1871, in a book entitled
"Description of the U. S. Fishes."

I have been thinking of you
 and wondering how you are getting on.
 I hope you are well and happy.
 I have been thinking of you
 and wondering how you are getting on.
 I hope you are well and happy.
 I have been thinking of you
 and wondering how you are getting on.
 I hope you are well and happy.

STATE OF IDAHO, COUNTY OF ADA, ss.

I, Clarence A. Planting, Recorder for Ada County, do hereby certify that the Attached is a full, true and correct copy of Dist. No. _____ as it appears on record in Book _____ of Water Rights at Page 189 Records of Ada County, State of Idaho.

IN WITNESS WHEREOF, I have set my hand and affixed my official seal this 9th day of March, 1920

CLARENCE A. PLANTING, Recorder

By Samuel K. Bliss, Deputy

WHEREAS, the subscribers to the stock of The Noble Ditch Company, Limited, did on the 13th. day of August, A.D., 1898, cause D.F. Barch, Mattie F. Noble, W.D. Sherman, ~~John~~ Coughanour, and W.S. Stewart, as directors to execute and file with the proper officers Articles of Incorporation for The Noble Ditch Company, Limited, and

WHEREAS, said directors did execute said Articles of Incorporation and did on the 17th. day of October, A.D., 1898, file the same for record with the County Recorder of the County of Canyon, State of Idaho, and on the 11 day of ^{November} October, A.D., 1898, file a certified copy in the office of Secretary of State of the State of Idaho, and

~~WHEREAS, the said Secretary of State did on the ___ day of October A.D., 1898, cause to be issued to the said The Noble Ditch Company, Limited, a certificate under the Great Seal of Idaho showing the due and regular incorporation of the said The Noble Ditch Company, Limited, and~~

WHEREAS, under and by virtue of said before mentioned acts ~~and of said certificate~~ the said The Noble Ditch Company, Limited, did enter upon and perform all duties devolving upon it as such Corporation, adopt By-laws, elect officers, issue certificates of stock, acquire property, and have at all times since said date and still continues to perform and execute all corporate acts authorized and required by said Articles of Incorporation and By-laws, and

WHEREAS, the said Articles of Incorporation by mistake and inadvertence fail to state the place of residence of its directors chosen for the first year, and

WHEREAS, said directors were in truth and in fact each and all of them residents of the State of Idaho.

NOW THEREFORE, for the purpose of correcting said mistake, THESE AMENDED ARTICLES OF INCORPORATION are caused to be executed.

AMENDED ARTICLES OF INCORPORATION OF "THE NOBLE
DITCH COMPANY, LIMITED"

KNOW ALL MEN BY THESE PRESENTS, That we, the undersigned, have this day voluntarily associated ourselves together for the purpose of forming a corporation, under the laws of the State of Idaho, and we hereby certify; *1st Name shall be "Noble Ditch Company" Limited*
Second, that the purposes for which it is formed are, to purchase, construct, own, maintain and operate, ditches and canals for agricultural, manufacturing and mining purposes and to acquire the necessary water rights, rights of way, easements and privileges for that purpose to collect tolls for the use of water or to furnish water to the stockholders upon a co-operative plan.

Third. That the place where its principal business is to be transacted shall be the Town of Payette, County of Canyon, State of Idaho

Fourth. That the term for which it is to exist is fifty years from and after the date of its incorporation.

Fifth. That the number of its directors shall be five and that the names and residences of those who are chosen for the first year are

Names.	Residence.
B.F. Bartch,	Payette, Idaho.

In the Matter of the General
Determination of the right
to the use of the surface
and ground waters of the
Payette River Drainage Basin

ORDER FOR ENLARGEMENT OF TIME

On motion of Louis Corrono, Attorney for The Noble Ditch Co.,
Ltd., and good cause appearing therefor;

IT IS HEREBY ORDERED that The Noble Ditch Co., Ltd., be, and
is hereby granted a further period of thirty days from April 24,
1970, within which to file their "Notice of Claim to a Water
Right", in the above cause.

DATED this _____ day of April, 1970.

District Judge.

to the use of the surface
and ground water of the
Payette River Drain basin

M O T I O N

COMES NOW, The Noble Ditch Co., Ltd., an Idaho corporation, one of the defendants in the above-entitled matter, by and through its attorney, Louis Gorrone, and respectfully moves this Court to extend for thirty days from April 24, 1970, the time to file the "Notice of Claim to a Water Right", in the above-entitled cause, and in support of said motion states there are numerous and complex documents, papers and records which must be examined and many properties to be located and described before this defendant can make an intelligent claim to its water rights. It is the understanding of this defendant that the State of Idaho, Department of Reclamation, has no objection to this extension. It shall be practically impossible to submit a proper claim without the extension of time herein requested.

DATED this 16th day of April, 1970.

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO: The Noble Ditch Company, Ltd.

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this 17th day of February, 1970.

The Noble Ditch Company, Ltd:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Shoshone County Courthouse - Emmett on March 16, 1970, at 1:00 p.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, mans,

65 0403

The Noble Ditch Company, Ltd.

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

Deane Ellis
P. O. Box 413
Fruitland, Idaho 83619

Dear Mr. Ellis:

After our meeting with representatives of your ditch company on March 16, 1970, we have since altered our findings as to your irrigated acreages. Some of the land we had listed as being irrigated by the Noble Canal was not and vice-versa; however, the grand total of irrigated acreages came out very much the same as the first tabulation. The first tabulation was 8,671.7, the second was 8,674.7, the only difference being areas of application of the water.

I realize there is some discrepancy between what you think your canal company is irrigating and what we have on our maps. After going over all our maps with the representatives from your company, I feel that the latest tabulation is as accurate as is possible to get without further exhaustive study.

If you have any further questions regarding your claims or any other matter pertaining to the Payette adjudication, please feel free to contact me at any time.

Very truly yours,

Paul M. Castelin
Chief, Adjudication Section

Claim #65-0403

Priority	Rate of Diversion	Quantity per Year	Acres Irrigated
1. 12/ 2/1881	2. 191.17	3. 43,091.8	4. 8,627.0

5. Source: Payette River

6. Purpose: Irrigation

7. Period of Use: April 1 through October 31

8. Type and Point of Diversion: Dam and head gate

SEE attached listing for land descriptions

1. Priority based on posted notice filed by W. B. Noble in Book 1, Water Rights, Page 89, Ada County.
2. Maximum rate of diversion is recommended to be 191.18 cubic feet per second allowing 1 c.f.s./50 acres if irrigated land, the maximum allowed under the law 42-202, Volume 8, Idaho Code. By using the Moritz formula for determining seepage loss the loss is 18.63 c.f.s. to deliver 191.17 c.f.s.
3. The acre foot irrigation requirement is calculated to be $8.627 \times 4.5 = 38,821.5$ + (11% seepage loss) $4,270.3 = 43,091.8$. The 4.5 acre feet per acre is based on the University of Idaho research study intitled Consumptive Irrigation Requirements for Crops in Idaho.
4. The irrigated acres is tabulated by using maps prepared by the Department of Water Administration and field investigations. The non-irrigated lands, which are covered by a dwelling or road, are not included.
5. The source was found to be from the Payette River by the field survey and mapping crew.
6. By field examination, the purpose was found to be for irrigation.
7. The period of use has been determined by using the report Spring and Fall Freezing Temperatures in Idaho, published by the University of Idaho, Bulletin 494. The irrigation season for the area is 174 days in which the temperature does not drop below 28°F. The temperatures were recorded at the weather station outside of Emmett, Idaho.
8. The point of diversion was located by using U. S. G. S. quad maps and the B. L. M. survey.

Dean Ellis, Secretary
Noble Ditch Co., Ltd.
P. O. Box 413
Fruitland, Idaho 83619

Dear Mr. Ellis:

When you submitted your Claim to a Water Right in 1970, you included a Record of Land under the Noble Ditch. Since the acres in each section were described as to property owner rather than quarter corners and the owners have since changed, the list is difficult to use in reviewing your claim.

To hasten this procedure so a recommendation of your right can be made, would you please send an updated land list to our office at your earliest convenience. Your cooperation in this matter is greatly appreciated.

Sincerely,

DONALD V. SHAFF
Water Resource Agent

RE: Claim No. 65-0403

Ray Knight
Route 2
New Plymouth, ID 83655

O
Dear Mr. Knight:

P
In reviewing the adjudication water claim for Noble Ditch Co., I find you apparently own 20 shares of Noble stock for all or part of your irrigated land. As a result only 20 inches of water can be recommended to the district court for its decree because a share of company stock represents an inch.

204, 5. 34, TBN RAW

Y
This is not an attempt to have you buy more shares, but rather enable us to recommend to the court an inch per acre for the irrigated land throughout the basin. Before such a recommendation can be made we would have to have a water right claim from you for the water, perhaps drain ditch water, you use beside the Noble water.

A claim is enclosed for this purpose, if you need it. If you have purchased more shares, need some more explanation, or help with the claim, please let me know.

Sincerely,

Donald V. Shaff
Water Resource Agent

Mr. Coughanour served as mayor of the growing town for nine years and there was a time when the names of Moss, Rossi and Coughanour were almost synonymous with the name Payette.

In 1877, Mr. Coughanour returned to his native Pennsylvania home and married a former sweetheart, Miss Galena Bunting. Their two children, Emma and William M. were popular young people in early Payette. Emma married Dr. Hamilton of Silver City and Will became the husband of his schoolmate, Alta Stroup, a daughter of the Stroups of Washoe.

IRRIGATION

The coming of the railroad gave an impetus to farming and emphasized the need of bigger and better ditches to bring water to the acres of sagebrush land. When Peter Pence made his big cattle sale to Ballantyne, he took over and enlarged the cooperative ditch on the north side of the river to get more water for his ranch and extended it so that farmers in the Weiser section could irrigate their places. Basin gold was responsible for a development on the south side. In 1883, E. A. Stevenson, who had placer-mined in Boise Basin with W. B. (Doc.) Noble, was living on a ranch adjoining the pioneer Kennedy place. Delighted with an experimental 90-acre alfalfa field that he had developed, he saw great possibilities in the dry land, once it was irrigated, and interested his former Basin mining partner, W. B. Noble, in a reclamation project. Incidentally, the first alfalfa in the valley was grown by Grandmother Bivens (Mrs. David) in her garden. Attracted by the advertisement of a new legume in a garden seed catalogue, she sent for seed and tried it with good success.

Mr. Stevenson, a man of great ability, had gone from New York to California at a very early date. There he was active in business and political affairs, and served four terms in the Legislature, one term as Speaker. Unnerved by a tragic experience in which his wife and children were murdered by Indians and for which he took fearful revenge, he came to Idaho in 1863; mined in the Basin and served as Speaker of the Idaho House of Representatives. He moved to the Lower Payette with his second wife and family in 1882.

Wise in the knowledge of water rights and their manipulation, Mr. Noble, also a man of great experience and ability, was especially helpful in planning an irrigation project for 7,000 acres of sagebrush land that they secured below the Overland Road. If the ditch was to bear his name, Mr. Noble insisted that water rights must be forever good. Farmers, who assisted with the construction, were paid in land and permanent water rights that have stood up through every test of litigation throughout the years. How well 'Doc' Noble knew that a man's sagebrush farm was only as good as his water right. However, the Stevenson-Noble irrigation project was hardly well started when Mr. Stevenson was appointed the first home-rule Territorial Governor of Idaho, by President Grover Cleveland, and served with distinction from 1885 to 1889. Governor Stevenson never returned to the Payette; he only lived "along the river" three years. While years of endeavor and much of his money went into his land and ditch program. W. B. Noble never made his permanent home in the Payette Valley. However, a nicely painted white house, surrounded by trees, in the midst of his sagebrush domain is well remembered. Business interests were retained in Idaho City, as well as the family home on Bueno Vista Bar, Mrs. Noble, a former teacher, was one of the first women to serve in the Idaho Legislature and represented Boise County in the House of Representatives. When the children, two daughters and two sons, were ready for high school, the Nobles moved to Boise. The last member of the family, Miss Mary Noble, a beloved Boise teacher, passed away in 1955. Citizens of the Payette region will, however, long remember that it was the money and vision of two Basin pioneer miners that first reclaimed sagebrush land west of the Overland Road, and left a pattern for others to follow. When the railway took the place of the Overland Road, the iron horse outran the cayuses, and passengers were more comfortable in cars than in stage coaches, real pioneer days were over on the lower Payette.

By 1890 and Statehood, old days and ways were vanishing rapidly. Emmett and Payette were becoming thriving towns and dreary Little Falk's Store was on the way out. Up and down the Valley, more ditches were being dug and sagebrush land reclaimed, but the commercial fruit and dairy businesses were still unborn; Utopian New Plymouth

and busy Fruitland, but distant dreams.

Now that the pioneer story of the thirty-mile long Payette Valley has been told in part, let us go back to the sixties again and get ready to travel into the hills and meet the up-river friends and neighbors of long ago. Are your carpet bags packed? We will have to be "stirring around" pretty early to catch the up-country stage at Falk's Store. It will be nice to see how things are coming along around Martinsville and I am sure you will enjoy your trip into the hills. They are lovely in the spring, with their carpet of green and so many wild flowers.

Some of the steep pitches may frighten you a bit, but Harris keeps his toll road and outfit in good shape and his drivers know how to handle the ribbons. It's no fun if you worry about the road. It looks like we will have a good day and going early, we should not meet too many freighters. The ox teams are the dickens to pass on the narrow grades, but we'll "take her easy" and not go too far the first day. Pence said the river was 'raisin' some," but we hope it won't be up in the road.

Canyon County, Idaho

This Abstract made for and at the request of **Miller & Viele**

By CANYON COUNTY ABSTRACT CO.,

Abstractors.

Proclamation by the Governor.

WHEREAS, It has been duly certified to me, this nineteenth day of November, A. D., 1892, by the Board of County Commissioners of Ada County, acting as a Board of Canvassers, the Auditor of said County acting as Clerk, that a majority of the votes cast at the general election, held on the eighth day of November, A. D. 1892, in said County, were for the proposed new County of Canyon. Now, therefore,

I, NORMAN B. WILLEY, Governor of the State of Idaho, do officially proclaim and declare the said County of Canyon created under and by virtue of the provisions of an Act of the Legislature of said State entitled an Act "To Create and Organize the County of Canyon and to Define the Boundaries of Ada County." Approved March 7th, A. D., 1891.

GREAT SEAL
OF THE
STATE OF IDAHO.

In testimony whereof I have hereunto set my hand and caused to be affixed the Great Seal of the State. Done at the City of Boise, the capital of Idaho, this nineteenth day of November, in the year of our Lord one thousand eight hundred and ninety-two.

Attest:

A. J. PINKHAM,

Secretary of State.

NORMAN B. WILLEY,

Governor.

I have located this day a ditch and water right commencing at this notice and running in a westerly direction toward the Whirly bottom on Snake River a distance of about 10 miles, Said ditch to be 10 feet wide on the bottom, 14 feet wide on the top, and 20 inches deep, and the capacity of 20,000 inches of water, the appropriation of notice is from a Slough running out of the Payette River, about one half miles above the head of Stuart's ditch on the same slough and 400 yards North Easterly from the Stage Barn, Situated four miles above Falk Store Ada County Idaho. Terr.

W. B. Noble & Co.

to

The Public.

Notice of Water Right.

Dated December 2 1881.

Recorded December 2 1881.

Book 1 page 89 Records of Ada County Idaho
Book 1 of Water Rights Page 20. *Records of Canyon County*

Recites as follows:

" I have this day located a ditch and water right commencing at this notice and running in a Westerly direction along the line of survey along above the ranches of Robertson and Patton, thence below the graveyard, back of Folke store and above the line of Stewarts ditch to the bluff back of McFarlands place, thence continuing in a Westerly direction to Whitley and Washoe bottoms on Snake River, said appropriation of Water is made out of a slough of the Payette River, about 200 feet below the fence of Levi Reed. Said ditch is to be 20 feet wide on top and 15 feet at the bottom and 2 feet deep and capable of carrying 20000 inches of water.

Said water is claimed and appropriated for Agricultural, manufacturing and Irrigation purposes".

NOTICE OF WATER RIGHT

Dated. Oct. 25, 1882.

Filed. Oct. 31, 1882. 4 P.M.

In Bk 1 W.R. Page 53 *Lanyon County, Idaho*

In Bk 1 W.R. Page 120 Ada Co.

We the undersigned give notice that we claim the right to appropriate Ten (10000) thousand of water under a four inch pressure out of the waters of the Payette River for irrigating milling and other beneficial use, to be conveyed in a ditch 20 feet wide and four feet deep with a fall of three feet 3.163,) and one hundred and sixty eight feet to the mile, we further claim the right of way for said ditch, it is to commence notice on Slough on South side of Payette River, and notice of Levi Reed's place. runs in a westerly direction to Snake River a distance of 18 or 20 miles.

Note of Abstractor:

The recording of the name of W.B. Noble as M.B. Noble in the above instrument was apparently a mistake of the recorder, as no such a person as M.B. Noble ever had any interest or claimed any interest in said ditch or water right.

Idaho Department of Water Resources
C. Stephen Allred, Director
Boise, Idaho 83705

Dee
He

Dear Mr. Allred:

We are in receipt of the Proposed Finding of Water Rights, Civil No. 3667, dated October 2, 1978.

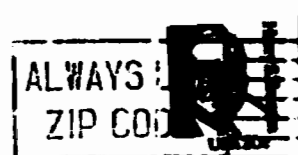

I have been instructed by the Board of Directors of the Noble Ditch Company, Ltd., to write you and express the appreciation of the Board for the good work accomplished by the Staff, and particularly for the assistance and cooperation of Mr. Dave Tuthill and Mr. Don Schaff. It has been a pleasure to work with them.

This letter is also an official protest regarding the diversion requirement as described in Paragraph 8 of the Findings of Fact. It has been the experience of the Board that 4.5 acre-feet per annum is not a sufficient amount of water to irrigate crops raised in the area described in figure 2 of the document. In the drouth year of 1977, 7 acre-feet were required.

The Board respectfully requests that this amount be reconsidered, and a more realistic amount of water be set as the requirement for this area.

yours truly

Kent W. Gist, Secretary

Department of Water Resources
Idaho State Capital
Boise, Idaho 83702

RECEIVED

APR 2 1984

Fruitland, Idaho
March 30, 1984

Department of Water Resources

Department of Water Resources
Idaho State Capitol
Boise, Idaho 1984

Dear Sirs:

The regular meeting of shareholders of Cerninus Lateral Ditch Co. Ltd. was held in the Conference Room of the Fruitland City Hall on March 30, 1984 at 7:30 pm for the purpose of continuing the association of shareowners which was formulated on July 12, 1974, and registered with the Department of Water Resources in Boise, Idaho.

As per State of Idaho requirements, this meeting was held prior to April 1984, thus avoiding registration and certification by the clerk of the District Court.

The meeting was called to order by the Chairman of the Board Edith Nell. The minutes of the March 11, 1983 meeting were read and approved as read. A treasures report was given.

No old business was reported.

Under new business, reports were given on repairs needed on the ditches. Discussion of these repairs followed.

Motion was made to do the necessary repairs and use the remaining money in savings to buy pipe to start tiling the lateral from the headgate to Highway 95. This motion was seconded and passed.

Motion was made and seconded and passed that the maintenance assessment for the year 1984 be \$25 a share.

Election of officers was held and the following were elected:

Doyle Taylor, chairman---Gladys Strawn, Sec./Treas.---Ward Nielson Watermaster---Craig Wildon, Ass't Watermaster---Lewis Ripley.

Motion made, seconded, and passes to adjourn. Adjourned at 9:00 pm.

Respectfully,

Gladys Strawn
Gladys Strawn, Sec.

MEMORANDUM

TO: File 65-0403X, 65-0403A

FROM: Don Shaff *DS*

DATE: November 4, 1965

RE: Recommended Acreage

For purposes of review, the lands irrigated by the company were segregated as to progress of development. The findings of the department reflect that 2,000 acres were initially irrigated under the 1881 appropriation. The balance of the acreage, 6,380, was developed with the 1893 appropriation.

Historically the company has neither delivered water nor issued different shares of stock based upon date of beneficial use. For this reason, the proposed finding should show the total of the irrigated acreage for each right. This amount being 8,380. At this date, the second right, 65-0403A, shows 6,380 in the proposed finding. The company has been notified, and a correction motion will be sent to the court, to correct this entry in the proposed finding.

Priority advanced following analysis of other priorities & locations. This right was split from the 1883 claim when it was learned New Plymouth and Fruitland were not towns in 1890. It was assumed the canal did not reach this far either.

Furthermore, the priorities for two ditches immediately below Noble are 1891 & 1892. * A ditch would not be necessary for the lands covered by the Reed & Enterprise if the Noble was above them.

Therefore the priority date for this right is recommended the year after the Reed date.

C. STEPHEN ALLRED
Director

(Office at the corner of
Franklin and Cole Roads)

(208) 384-2190

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

Re: 65-0403A

Dear Mr. Gist,

This agency is preparing to send a correction of your water right referenced above to the district court in the Payette River Adjudication. This correction was brought to our attention by you or the Department staff found it inadvertently. Before seeking a decree from the district court of the uncontested water rights in the adjudication, these water rights should be corrected in the court record first.

Time is important, however. Please review the correction(s) shown on the attached sheet promptly. If you do not respond by October 28, 1985, the water right as shown will be assumed correct and become part of a motion to the court to correct the Proposed Finding. You will receive a copy of that motion before the court hearing will be held to correct these water rights. You could contest the motion at that time but you will be doing it court. Please reply promptly to this office if you do not agree with the way your water right is described.

The deleted, incorrect parts are shown with a line (---) through it. The corrected information is shown by the hand-written information. If you have any questions please feel free to contact me at this office or telephone 334-4664. Please excuse the informal nature of the attachment, but this form was the quickest way to speed the matter along. A typed exhibit will be a part of the motion cited above. If you agree with the description of your water right(s) there is no need to retain this sheet because you will receive the motion and typed exhibit in the near future.

Thank you for your help to make the Payette River decree as accurate as possible.

Regards,

Donald V. Shaff
Water Rights Supervisor

MEMORANDUM

TO: File 65-0403X, 65-0403A ✓

FROM: Don Shaff *DS*

DATE: November 4, 1985

RE: Recommended Acreage

For purposes of review, the lands irrigated by the company were segregated as to progress of development. The findings of the department reflect that 2,000 acres were initially irrigated under the 1881 appropriation. The balance of the acreage, 6,380, was developed with the 1893 appropriation.

Historically the company has neither delivered water nor issued different shares of stock based upon date of beneficial use. For this reason, the proposed finding should show the total of the irrigated acreage for each right. This amount being 8,380. At this date, the second right, 65-0403A, shows 6,380 in the proposed finding. The company has been notified, and a correction motion will be sent to the court, to correct this entry in the proposed finding.
