Re Permit No. 63-12315

Dear Mr. Nelson:

The permit referenced above was issued to James T. Nelson for a stockwater and fire protection pond for Star Ranch in Boise County. The source is an intermittent stream. This letter is to request that you call me to schedule a field exam for this permit as you were identified as the person to contact regarding a field exam. The exam is required by Idaho law before a permit can be licensed at which time it becomes a water right. The license is the end product needed for continued use of this water on your land.

Please call me by July 13, 2012, to set an appointment for the exam. I'll gather some information about the diversion and delivery system at that time in preparation for the exam. Thank you.

Sincerely,
