CONDITIONS OF APPROVAL

1. Water shall not be diverted from fire protection storage except to fight or repel an existing fire.
2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
3. Upon specific notification by the Department, the right holder shall provide a means acceptable to the department to measure the amount of water entering the reservoir and the amount of water released from the reservoir, and the right holder shall install controlling works that allow the Watermaster to release water from the reservoir.
4. From June 15 to November 1 of each year outflow from the storage facility must equal or exceed inflow to the storage facility.

Water Right License

WATER RIGHT NO. 63-12315

5. Point of diversion and place of use are located within Lots 17-18, Blk. 4, Star Ranch Unit No. 5.
6. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 29th day of October, 2012.
