**Subject:** Permit 63-21639 subject to licensing

This permit was split from 63-11398 through an assignment of permit for the industrial use. That portion went to CTI SSI food Services Inc. That right has been licensed as 63-31640. This is the permit that was bounced from the current location to Columbia Village to ground in 5N 5W SEC 30 AND 31 and back again.

When checking tax lot information it appears that the current owner is Valley Storage. If so then it appears that this portion of the permit should also be assigned to the new owner. If not let me know how you want to proceed on the permit review.
