Re: Water Permit 63-31639

Dear Sir:

I am attempting to establish the ownership and current use for the permit listed above in an effort to conduct a field verification of the development for licensing purposes. The permit shows J R Simplot as the permit holder however tax lot information indicates that the current owner of the permitted POU is Valley Storage. I am also attempting to contact Valley Storage to confirm ownership. Ultimately if Valley Storage is the current owner, an assignment of permit would be necessary to change the ownership.

Please contact me within 30 business days if J R Simplot has an interest in the permit. Otherwise I will work with Valley Storage in an effort to get the permit licensed.

This permit has a long history of being moved from one place to another by but current records indicate that the permit is currently associated with property shown as being owned by Valley Storage. That property is south of Ustick Road and ¼ mile west of Allendale Road. It lies north of the Mora Canal. I have included a clip of an aerial photo showing the property and some major landmarks.

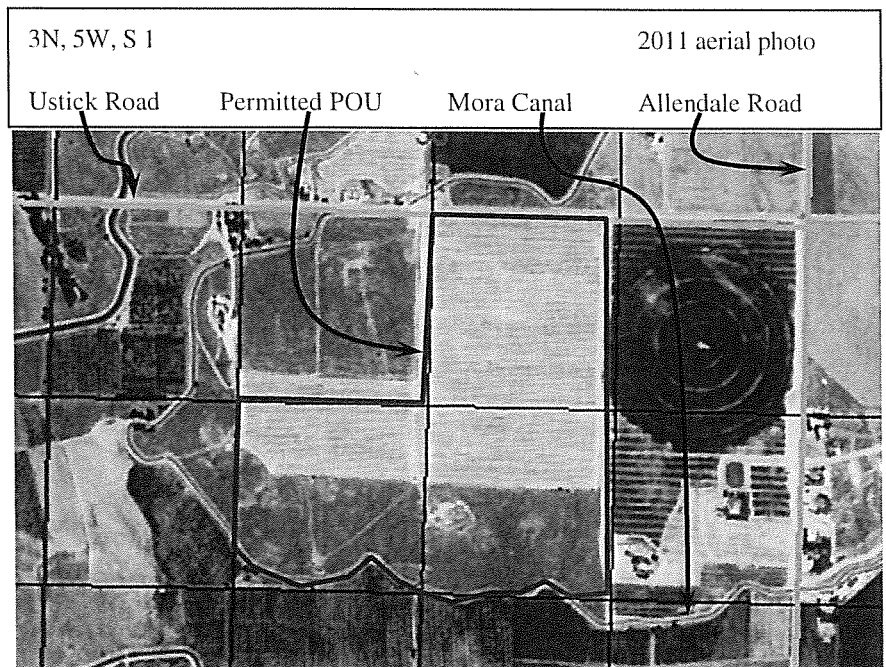

The permit as shown is for a well to irrigate approximately 109 acres in the shape shown in red.

You can contact me at the address or phone number shown above or at the e-mail address shown below.

Sincerely,

Kelly K Christensen
Sr Water Resource Agent
