RE: Water Right Permit No. 75-7598

Dear Water Right Permit Owners:

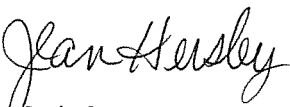

The Idaho Department of Water Resources is in the process of reviewing your water right permit for licensing. The review process includes verifying development of domestic use in connection with the permit. This can be done by determining if a dwelling exists on the property in question. We do not see a home on the property and without further information IDWR will have no option but to void the permit.

I have enclosed is a map of the area of use. If Salmon River water has been put to beneficial use for domestic purposes, please draw in the location of the home or location that the water is used for domestic purposes, and the location that the water is diverted (pumped) from the Salmon River. Please return this map to IDWR in the prepaid envelope enclosed within thirty (30) days.

If I do not receive the requested information from you within thirty (30) days, action may be taken to void your permit. If you agree that no beneficial use of water occurred under permit 75-7598, you can shorten the voiding process by completing the enclosed relinquishment form and returning it to IDWR.

If you have any questions, please contact me at (208) 287-4916.

Sincerely,

for Craig Saxton
Water Right Supervisor
