DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for an entire water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right or to report an ownership change for a portion of a water right. See the *Application for Transfer Instructions* for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

☐ Change diversion point(s)☒ Add diversion point(s)☐ Ownership change

1. APPLICANT(S) Falls Water Co. Inc Phone 208-522-1300
2. MAILING ADDRESS 2180 N Deborah Dr City Idaho Falls
State ID Zip 83401 Email scott1@fallswater.com

☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.

☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.

☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) required for water right ownership changes; see fee schedule.

☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 25-7148, 25-7191, 25-7418, 25-7509, 25-14035,
25-14055, 25-14114, 25-14326, 25-14327

☐ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 21.94 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, *Water Right Transfers, Online Resources*.

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Inter-connected weirs to municipal system

- b. Who owns the property at the point(s) of diversion? Applicant other than SESE/SE Sec 10
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

Lease agreement-attached.

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe _____

7. MAP - ☒ Attach a map of the diversion, measurement, control and distribution system. Clearly label the map with township, range, section and ¼ ¼ of section information. The *Map Tool*, available at <http://maps.idwr.idaho.gov/TransferApplicationLayouts/> provides a satisfactory template for creating the required map.

8. SIGNATURE - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

K. Scott Bruce
Signature of applicant or authorized agent

K. Scott Bruce, General Manager 9/7/12
Print name and title if applicable Date

Signature of applicant or authorized agent

Print name and title if applicable

Date

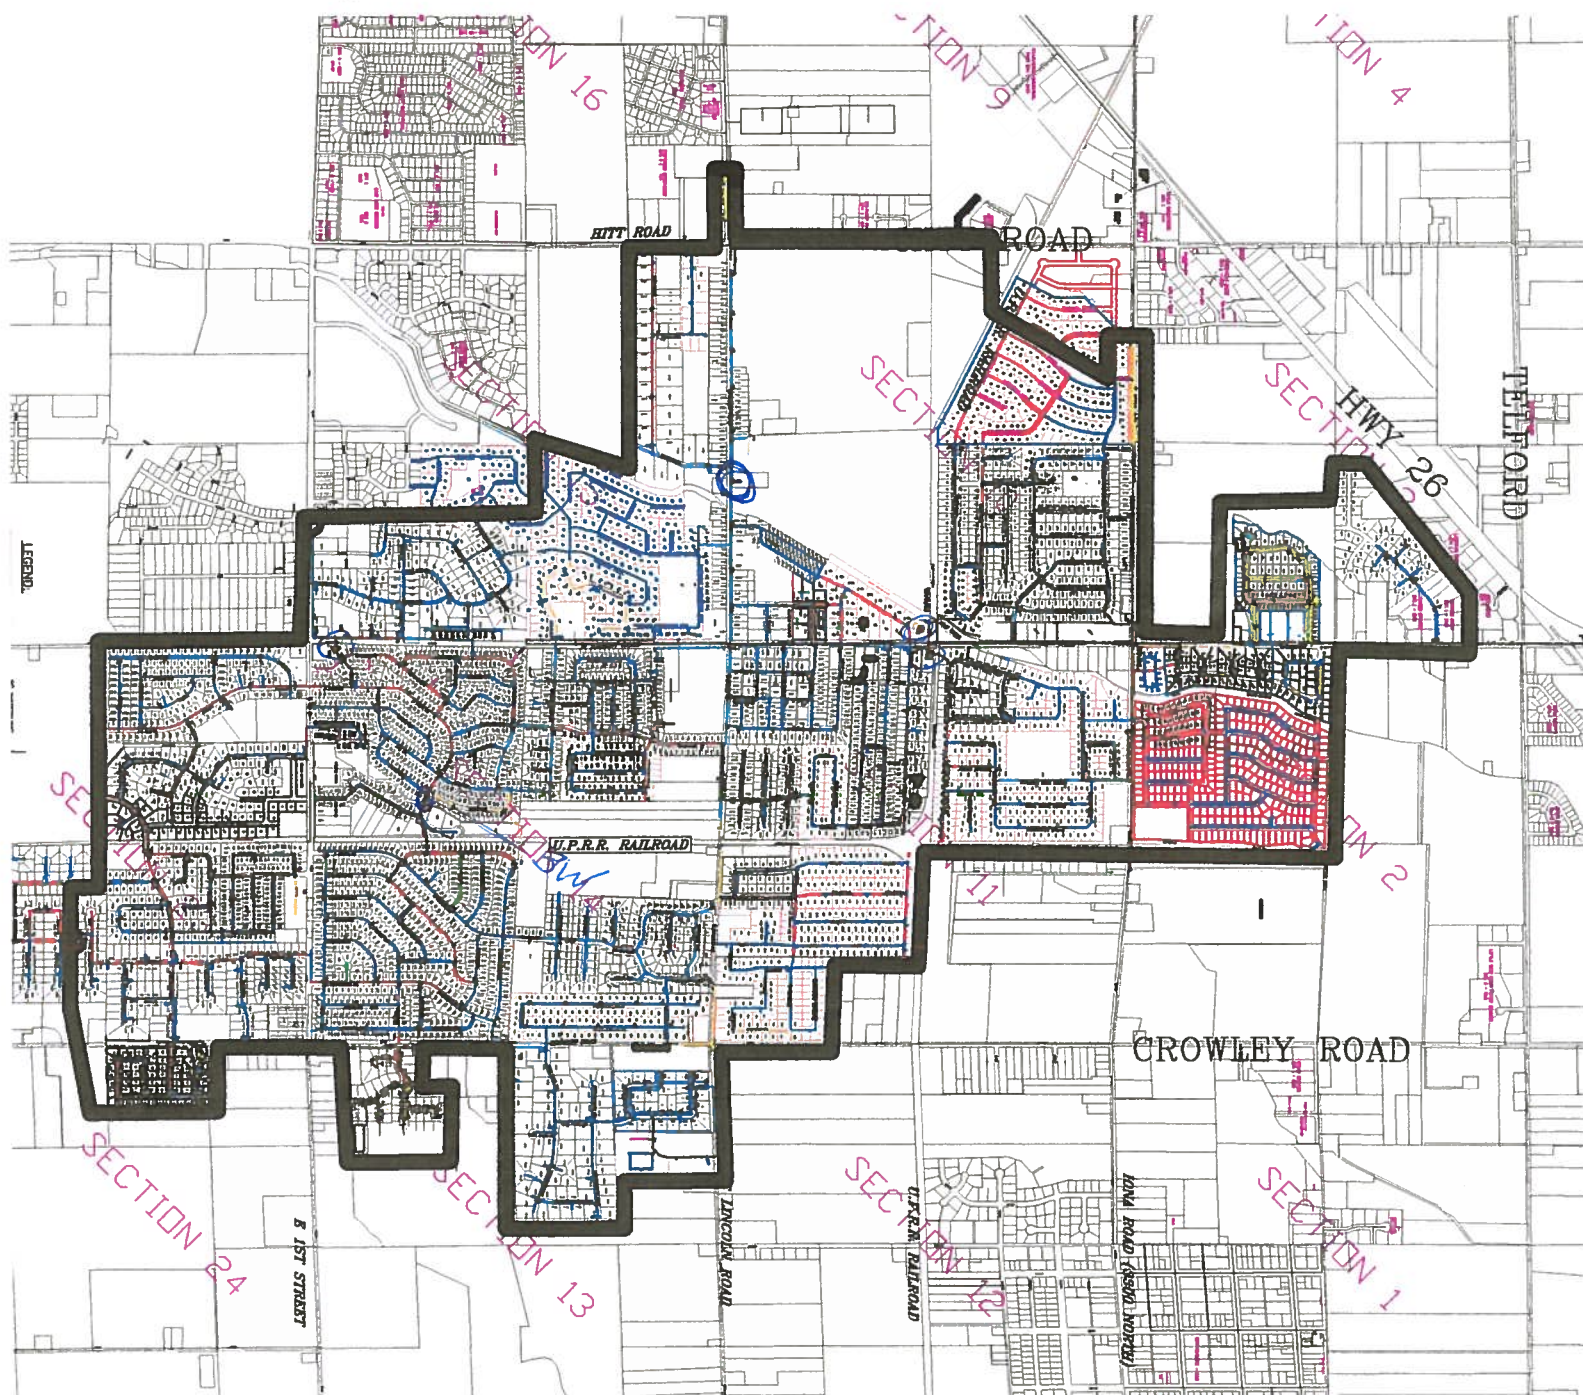

9. FEE - ☐ The application filing fee provided in Section 42-221, Idaho Code, must be submitted with the application for transfer. The Application fee is based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The *Fee Schedule* is available at www.idwr.idaho.gov, *Water Right Transfers, Step 4* and in the *Application for Transfer Instructions*.

MUNICIPAL Use:

Number of homes: 118

Place(s) of use: Large POU Info

Conditions of Approval:

1. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
Place of use is within the area served by the public water supply system of Falls Water
2. 128 Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
A lockable device subject to the approval of the Department shall be maintained on the
3. R02 diverting works in a manner that will provide the watermaster suitable control of the diversion.
4. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the
5. 131 authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
6. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
7. 004 This right does not grant any right-of-way or easement across the land of another.
8. X01 Municipal use is for 118 homes.

LEASE AGREEMENT FOR WATER RIGHT

This agreement is made on this 7th day of June, 2010 by and between Lincoln Land Company LLC, P.O. Box 1768, Idaho Falls, ID 83403, an Idaho Limited Liability Company and BECO Construction Co., Inc., P.O. Box 1768, Idaho Falls, ID 83403, an Idaho Corporation ("Lessors"), and Falls Water Co., Inc., 2180 N. Deborah Dr., Idaho Falls, ID 83401 ("FWC"), an Idaho corporation.

Fee: 19.00

WITNESSETH

That for and in consideration of the mutual covenants and promises herein set forth, the parties agree as follows:

1. LESSORS are the holders of water right license no. 25-02119, a right to divert 33 acre feet annually of ground water by means of a well located in the SWSE Section 10, T2N, R38E, Bonneville County, Idaho, for domestic use at the same location, with a priority of June 10, 1955. LESSORS are the holder of water right license nos. 25-10226 and 25-4114, rights to divert a total of 64.07 acre feet annually of ground water.
2. FWC is a water service corporation organized and existing under and by virtue of the laws of the State of Idaho, with its principle place of business in Bonneville County, Idaho. FWC provides water for domestic purposes from several wells to numerous homes in the Idaho Falls area.
3. By separate agreement executed simultaneously with the execution of this agreement, FWC has leased the above referenced well of LESSORS and desires to lease the referenced water rights also. Water right license no. 25-02119 currently has its diversion point at the well leased by the separate agreement executed simultaneously with the execution of this agreement and the place of use is currently within FWC service area. The parties understand and agree that to comply with Idaho law, in order for FWC to legally use water under water right nos. 25-10226 and 25-4114 for domestic purposes within the FWC service area, the place of diversion and place of use of such water rights must be changed pursuant to the provision of Idaho Code Sections 42-108 and 42-222.
4. LESSORS make no guarantee or warranties relating to the water right which is the subject of this agreement or the use of water pursuant thereto for any purpose. FWC recognizes and accepts the inherent risk associated with the use of water pursuant to such water right and agrees to save and hold LESSORS harmless from any loss, claim or cost by reason of a liability claim brought by any person or entity including FWC allegedly suffering a personal injury or property damage in some way attributable to the water right or the use of water pursuant thereto.
5. FWC agrees to maintain a policy of liability insurance in a minimum amount of One Million Dollars (\$1,000,000) to be effective at all times while this agreement is in effect. LESSORS will be named as an additional insured on FWC's policy and receive a certificate of insurance annually indicating the policy is in effect.

6. Immediately upon the execution of this agreement, the parties shall cooperatively cause the appropriate application for transfer of said water right to be filed pursuant to said sections of the Idaho Code with the Idaho Department of Water Resources and shall continue to cooperate to the end that formal approval of such transfer by IDWR may be obtained at the earliest possible date.
7. Upon receipt of formal approval by IDWR, the terms of this lease shall be that FWC will lease said water rights in the amount approved up to a total of 97.07 acre feet per year for a period of three years from the date of such approval, at the rate of \$34 per year per acre foot, the first of which payments has been paid upon the execution hereof, and each subsequent payment of which shall be paid on or before August 1st, the anniversary date of the lease year. This lease shall be renewable at the option of LESSORS for two additional three year periods on the same terms and conditions.
8. Upon the expiration or termination of this lease for any reason, FWC agrees to cooperate with LESSORS in any effort of LESSORS to change the point of diversion, place of use, nature of use or season of use of said water rights in accordance with the provisions of Idaho Code sections 42-108 and 42-222, and this agreement constitutes FWC's formal consent thereto. In the event the transfer of water right nos. 25-10226 and 25-4114 contemplated by this agreement is unsuccessful in whole or in part or should LESSORS not renew the water right lease during the lease term of the well lease, FWC may transfer the point of diversion for any or all of its existing water rights to the referenced well and LESSORS agrees to cooperate in such effort as provided in the lease of said well executed simultaneously herewith.
9. This lease shall not be assigned nor subleased to any other party without the prior written consent of LESSORS.
10. If LESSORS's property is sold during the term of this lease, LESSORS's rights hereunder may be assigned to the new owner of the property by LESSORS.
11. Failure to strictly comply with the provisions of this agreement shall constitute a default. Upon default, either party may pursue any lawful remedy without prior notice. In addition to any other remedies allowed by law, either party may terminate this lease upon default provided that prior to termination, the party claiming default shall give written notice specifying the grounds upon which termination will be effected and providing a ten day period upon which such default may be cured. If the default is not cured the party may proceed with termination.
12. In the event of default, the defaulting party shall pay all costs and attorney's fees incurred by the other in enforcing the provisions of this agreement, whether or not an actual lawsuit is filed. Failure to pay such fees and costs shall constitute a default.
13. This agreement supersedes all prior lease negotiations between the parties and is based upon no representation or warranties except as expressly set forth herein.

14. Any notice by either party pursuant to the provisions of this lease shall be mailed to the proper address provided above, by certified mail, return receipt requested. Notice shall be effective as of the date of the first attempted delivery by the postal service.

Dated this 7th day of June 2010.

LEASE AND EASEMENT AGREEMENT

This agreement is made on this 7th day of June, 2010 by and between Lincoln Land Company LLC, P.O. Box 1768, Idaho Falls, ID 83403, an Idaho Limited Liability Company and BECO Construction Co., Inc., P.O. Box 1768, Idaho Falls, ID 83403, an Idaho Corporation ("Lessors"), and Falls Water Co., Inc., 2180 N. Deborah Dr., Idaho Falls, ID 83401 ("FWC"), an Idaho corporation.

FWC operates several wells pumping water through pipelines to service the water needs of many municipal water users in the Idaho Falls area. LESSORS owns property in Lincoln which has a well located on it that FWC desires to lease.

- 1) For and in consideration of the mutual promises and the payments specified herein, LESSORS hereby agrees to lease the well located on its property described in Exhibit "A" attached hereto to FWC. LESSORS also hereby grants to FWC in connection with the lease a temporary easement upon and across the property described in Exhibit "A" for the location and installation of a pump and other essential equipment and facilities to divert water from said well, and a buried pipeline to transport such water from said well to a point where such water will be introduced into the existing system of FWC. The easement hereby granted includes the right of access to such property for the operation, maintenance, inspection, repair, rehabilitation or replacement of the well, diversion equipment and pipeline, and for the protection of such well and property as may be required of FWC by applicable Idaho Department of Health and Welfare regulations.
- 2) The term of the lease and temporary easements will be for ten (10) years. FWC shall pay to LESSORS \$1,700 as the lease amount for the first lease year due and payable on the first day of the lease. This lease amount shall be increased by \$50 each subsequent year of the lease term. Thus, the lease amount for the last year of the 10-year term would be \$2,150. All lease payments made later than 5 days past the first day of each lease year shall incur interest at the rate of 1 ½% per month from the date it was due until paid. If the lease payment is not made within 30 days of the lease payment date this lease will be in default. This late payment penalty provision shall not limit LESSORS's right to terminate or otherwise pursue remedies upon default.
- 3) FWC shall maintain the area around the well. FWC shall be responsible for all maintenance deemed by them to be necessary to maintain the operational status of the well including the pump and all associated piping and easements. All utilities shall be paid by FWC.
- 4) LESSORS makes no guarantee or warranties relating to the operation of the well for any purpose. FWC recognizes and accepts the inherent risk associated with the land, the aged condition of the well, and the water, which will be received out of the well and agrees to save and hold harmless LESSORS against any loss, claim or cost by reason of a liability claim brought by any person or entity including FWC allegedly suffering a personal injury or property damage in some way attributable to the well, water, its equipment or operation thereof by reason of FWC's use.

- 5) FWC agrees to maintain a policy of liability insurance in a minimum amount of One Million Dollars (\$1,000,000) to be effective at all times while this agreement is in effect. LESSORS will be named as an additional insured on FWC's policy and receive a certificate of insurance annually indicating the policy is in effect.
- 6) This lease shall not be sub-leased or assigned to any other party without the prior written consent of LESSORS.
- 7) If LESSORS decides to sell its property which may include the well site, this lease may be assigned to the new owner of the property by LESSORS.
- 8) FWC shall use the well strictly for supplying water to domestic water users in the Falls Water service area.
- 9) FWC agrees to lease up to 97.07 acre feet of water from LESSORS each year. The water rights being leased include Water rights No 25-2119 (33 AF), No. 25-4114 (12.47 AF), No. 25-10226 (51.6 AF). The lease for the water rights will be for a 3-year term. The lease amount for the water would be \$34 per year per acre foot LESSORS is able to transfer to FWC up to the 97.07 acre feet. The water right lease will be renewable at LESSORS's option for 2 additional 3-year terms. The water right lease terms as noted above will be encompassed in a separate lease agreement. FWC agrees to cooperate with LESSORS and its attorney to effectuate the transfer of the water rights and to sign the water rights lease agreement.
- 10) Failure to strictly comply with the provisions of this agreement shall constitute default. Upon default, either party may pursue any lawful remedy without prior notice. In addition to other remedies allowed by law, either party may terminate this lease provided that prior to termination the party claiming default shall give written notice specifying the grounds upon which termination will be made and providing a ten (10) day period within which the default may be cured. If the default is not cured, the party may proceed with the termination.
- 11) In the event of default, the defaulting party shall pay all costs and attorney's fees incurred by the other in enforcing the provisions of this agreement, whether or not an actual lawsuit is filed. Failure to pay such fees and costs shall constitute a default.
- 12) This agreement supersedes all prior lease negotiations between the parties and is based upon no representation or warranties except as expressly set forth herein.
- 13) Any notice by either party pursuant to the provisions of this lease shall be mailed to the proper address provided above, by certified mail, return receipt requested. Notice shall be effective as of the date of the first attempted delivery by the postal service.

Conditions of Approval:

1. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
2. G20 To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.
3. 004 This right does not grant any right-of-way or easement across the land of another.
4. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
5. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
6. X35 Rights 25-7148, 25-7191, and 25-7509 when combined shall not exceed a total annual maximum diversion volume of 1739.1 af.
7. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
8. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
9. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
10. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
11. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
12. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
13. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
14. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
15. X01 Municipal use is for 118 homes.

Decreed Date: 9/30/2005

Conditions of Approval:

1. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
2. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
3. X35 Rights 25-7148, 25-7191, and 25-7509 when combined shall not exceed a total annual maximum diversion volume of 1739.1 af.
4. G20 To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.
5. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
6. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
7. X01 Municipal use is for 1315 homes.
8. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
9. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
10. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
11. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
12. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
13. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
14. 004 This right does not grant any right-of-way or easement across the land of another.
15. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

Decreed Date: 9/30/2005

Conditions of Approval:

1. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
2. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
4. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
5. 004 This right does not grant any right-of-way or easement across the land of another.
6. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
8. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
9. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
10. G20 To the extent necessary for administration between points of diversion for ground water; and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.
11. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
12. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
13. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.

Conditions of Approval:

1. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
2. G20 To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.
3. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
4. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
5. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
7. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
8. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
9. X35 Rights 25-7148, 25-7191, and 25-7509 when combined shall not exceed a total annual maximum diversion volume of 1739.1 af.
10. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. 004 This right does not grant any right-of-way or easement across the land of another.
13. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
14. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

Conditions of Approval:

1. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
2. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
3. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
4. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
5. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
6. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
7. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
8. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
9. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
10. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
11. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
12. 004 This right does not grant any right-of-way or easement across the land of another.
13. G20 To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.

Conditions of Approval:

1. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes
2. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
4. 131 Prior to the diversion and use of water under Transfer approval 73069, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
5. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
6. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
7. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
8. F06 The following rights are diverted through points of diversion described above: 25-7148, 25-7191, 25-7418, 25-7509, 25-14035, and 25-14055
9. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
10. G20 To the extent necessary for administration between points of diversion for ground water; and between points of diversion for ground water and hydraulically connected surface sources, water was first appropriated or used from:
Well No. 1 located in T2N R38E S14 SWSWSW on 6/10/1958 in the amount of 0.59 cfs.
Well No. 2 located in T2N R38E S14 SENESW on 12/31/1962 in the amount of 1.16 cfs.
Well No. 4 located in T2N R38E S14 SENESW on 4/18/1980 in the amount of 3.00 cfs.
Well No. 5 located in T2N R38E S11 SWSWNW on 3/13/1978 in the amount of 1.89 cfs.
11. 004 This right does not grant any right-of-way or easement across the land of another.
12. 128 Place of use is within the area served by the public water supply system of Falls Water Company INC. The place of use is generally located within T2N R38E Sections 10, 11, 13, 14, 15, 16, 22, 23.
13. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

Conditions of Approval:

1. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
2. 212 Prior to diversion and use of water under Transfer approval 76778, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
3. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
4. K02 This right is based upon an enlargement of Right No. 25-14327 pursuant to Section 42-1426, Idaho Code.
5. 004 This right does not grant any right-of-way or easement across the land of another.
6. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate.
7. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
8. K09 This right is for an enlargement of 81.9 acres within the place of use described for this right.
9. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
10. 228 Municipal use under rights 25-14326 and 25-14327 is for irrigation of 310.0 acres within the authorized place of use in a single irrigation season.
11. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
12. X35 Rights 25-14326 and 25-14327 when combined shall not exceed a total diversion rate of 4.57 cfs, a total annual maximum diversion volume of 1240.0 af at the field headgate, and the irrigation of 310.0 acres.
13. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
14. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
15. 126 Place of use is within the service area of Falls Water Co. Inc as provided for under Idaho law. The place of use is generally located within Sections 2, 3, 10, 11, 13-16 and 22-24, Township 02N, Range 38E.
16. C11 This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.

Page _____ of _____

17. 201 The combination of changes under:
Transfer approval 76778 as described under rights 25-14326 and 25-14327;
Transfer approval 76804 as described under rights 29-13979 and 29-13980;
Transfer approval 76805 as described under rights 35-14046 and 35-14052;
Transfer approval 76806 as described under rights 36-16878 and 36-16879;
Transfer approval 76808 as described under rights 21-13121 and 21-13122;

provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right.
18. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.

Conditions of Approval:

1. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
2. 212 Prior to diversion and use of water under Transfer approval 76778, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
3. 201 The combination of changes under:
Transfer approval 76778 as described under rights 25-14326 and 25-14327;
Transfer approval 76804 as described under rights 29-13979 and 29-13980;
Transfer approval 76805 as described under rights 35-14046 and 35-14052;
Transfer approval 76806 as described under rights 36-16878 and 36-16879;
Transfer approval 76808 as described under rights 21-13121 and 21-13122;

provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right.
4. 004 This right does not grant any right-of-way or easement across the land of another.
5. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
6. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afu per acre at the field headgate.
7. X27 This right is limited to the irrigation of 228.1 acres within the authorized place of use in a single irrigation season.
8. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
9. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
10. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
11. X35 Rights 25-14326 and 25-14327 when combined shall not exceed a total diversion rate of 4.57 cfs, a total annual maximum diversion volume of 1240.0 af at the field headgate, and the irrigation of 310.0 acres.
12. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
13. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

Page _____ of _____

14. 228 Municipal use under rights 25-14326 and 25-14327 is for irrigation of 310.0 acres within the authorized place of use in a single irrigation season.
15. K01 Right No. 25-14326 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
16. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
17. 126 Place of use is within the service area of Falls Water Co. Inc as provided for under Idaho law. The place of use is generally located within Sections 2, 3, 10, 11, 13-16 and 22-24, Township 02N, Range 38E.
