Hi Jean,

We have a primary residence and a small guest house on the same lot. There are not two lots involved. There is a fish screen and the pump was professionally installed by RC Worst. Feel free to call me if you have any other questions, (208) 660-3850.

Thank you,

Judy Werre

Subject: Water Right Permit 95-15401

The Idaho Department of Water Resources is in the process of reviewing Water Right Permit 95-15401 for licensing. During the review process, it was determined additional information is needed before a license can be issued.

Your permit was issued for 2 homes and irrigation not to exceed ½ acre within each platted subdivision lot. Which lot or lots are the homes located? Has a fish screen been installed and maintained at the point of diversion.

Because the Department cannot issue the license without proper documentation, we will hold any action for thirty (30) days pending receipt of the necessary information.

If you have any questions, please contact me at (208) 287-4942. Thank you.
