

MEMORANDUM

Date: October 30, 2012
To: Water Right File 37-20931
From: csaxton
Re: Shape POU

I agree with Sandy and that proper legal description for the place of use is only in the SESE of Section 18 and does not fall in Section 19 at all. I took the 4.3 acre shape that Sandy drew which represented the irrigated POU and just shifted it to the north so the whole POU now falls within the SESE of Section 18. The POU shape does not fit the aerial photography underneath it, but I think it will prevent confusion with water right searches and overlap reviews to have the shape fit the POU description on the license.

Department of Water Resources

Reference Map

37-20931

This map depicts the department examiners interpretation of the place of use & point of diversion developed in accordance with the permit.

R15E

Note: Meets and bounds description confirm that POU is in the SESE S. 18.
Aerial photography and GCDB do not match. Assume the meets-and-bounds description is accurate.
