Glen Gardiner
Idaho Department of Water Resources

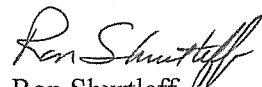

Re; Water Rights # 65-23525, 65-23526

Dear Mr. Gardiner,

As per our phone conversation and after viewing the aerial maps and photos for Water Rights 65-23525 and 65-23526, I have concluded that it is acceptable and appropriate to grant a waiver to the requirement for a measuring devise and locking devise at the points of diversion for the two water rights.

I believe the Department of Water Resources should reserve the right to reinstate the requirement of a measuring device and a locking device at each diversion, in the event that it might become necessary to properly administer these and other water rights at some time in the future.

Sincerely,

Ron Shurtleff
