AFFIDAVIT OF GARTH D MONROE

STATE OF IDAHO)
 :SS
COUNTY OF CARIBOU)

GARTH D MONROE , being first duly sworn under oath, deposes and states that the following facts are true and correct to the best of my knowledge, information and personal belief:

1. My name is Garth D Monroe, I am 49 years old and my address is 16901 Nounan Road, Soda Springs, Idaho, 83276.
2. I grew up on a farm located in the drainage for Eightmile Creek and currently reside in a home in the same area.
3. I have served as Watermaster for Water District 11A, ("WD11A"), Eightmile Creek and Bailey Creek from 2002 to present.
4. The Bailey Creek water rights decreed to Edmond Beus ("Beus") and Eph. T. Williams ("Williams") in the case of Utah Power and Light v Last Chance Canal Co, dated July 14, 1920, are appurtenant to land owned by Bear River Meadows, LLC, which is managed and owned by Chuck Schvaneveldt (hereinafter Schvaneveldt), aka. East Office LLC in the 2011 Watermaster Report for WD11A.
5. Starting prior to my becoming Watermaster, the accepted practice for tracking usage in the Daily Record Books was to record the sum of the decreed diversion rates for all of a water users water rights from each source. This number, designated in 24 hour second feet, was recorded each day for the 164 days from April 20 to September 10. To determine the total year's diversion, the water rights were credited as being continuously diverted at the full amount over the 164 days. The combined total, reflected in 24 hour second feet, was recorded in the Watermaster's Report under a single water right number though the water user may have multiple water rights from the source. Provided none of the water rights were split due to transfers or ownership changes, the

same amount for each day's delivery and the yearend total was carried over from year to year.

6. From 2002 to 2007, prior to Schvaneveldt purchasing the property, the assessment was being sent to Jan Christensen. During that period, in the Daily Record Book, I reported Ms. Christensen's combined total daily diversion in 24-hour second feet for the Bailey Creek water rights as 5.76. In the Watermaster's Report for 2002 to 2005 under right number 11-377A, I reported the cumulative total diversion in 24-hour second feet for the 164 days as 944.64. Then in 2006 and 2007, I changed the water right number in the Watermaster's Report to 11-376A but the cumulative total diversion remained 944.64.

7. From 2008 to present, the Watermaster's Report listed Schvaneveldt as receiving the assessment for water delivery on Schvaneveldt property with no change in the daily diversion or yearend total diversion.

8. In the 2008 Watermaster's Report, I reported the water right number as 11-377A, however since 2009 the water right number has been reported as 11-376A.

9. The four water rights decreed to Williams total 4.80 cubic feet per second ("cfs") and have been assigned numbers 11-377, 11-378, 11-379 and 11-380. Records for WD11A show these rights are entirely credited to Schvaneveldt.

10. Records for WD11A show there are ten water users with a portion of the water right 11-376, decreed to Edmond Beus. The portion still appurtenant to the Schvaneveldt property is 0.96 cfs of 11-376C, being the difference between the total daily diversion of 5.76 and 4.80 from the Williams water rights.

11. By resolution, the water users in WD11A are assessed each year based on the cumulative total reported in the Watermaster's Report except for small water users which pay a fix fee.

12. From 2002 to present, the \$38.95 assessment for water delivery on the Schvaneveldt property has been paid in full.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

DATED this 4 day of October, 2012.
