**ACTION OF THE DEPARTMENT OF WATER RESOURCES**

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the  
above Application for Amendment for Permit No. 63-12545 with the following:

**CONDITIONS OF APPROVAL**

1. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
2. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.
3. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
4. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.

Witness my hand this 19<sup>th</sup> day of October, 2012.

  
for GARY SPACKMAN  
Director
