In the matter of application
For Transfer no. 77610 In
The Name of Parkinson Farms | Two relevant facts
on the matter:

Ralph S. Parkinson representing himself
hereby respectfully states these two facts as
follows:

1- The Kirby Jensen well is approximately
three miles south west of the Parkinson
Farms well. Therefore there would be very
little if any effect on the Kirby Jensen Well.

2- The River master, Roger Totten, has
been pushing recharge the past two years and
is pushing ways to improve current recharges
opportunities.

Thank you,
Ralph S. Parkinson
