Subject: Yukl Transfer Legal

Just got word that on this one at Lewiston Tribune, I can get it to them Monday morning and still be OK for publication on the 20th and the 27th. Think that will work good for me and hopefully OK for you, too.

Subject: Another legal notice when you're ready

Dianne,

Thanks for the good, healing thoughts. I am getting too old to be harvesting the peaches in my mom's trees. The chiropractor will be seeing me a couple times this week.

I have completed the review and the other work for a 2nd Northern transfer assigned to me. That one is Judy Yukl's Transfer #78086 acting on Right 86-12006.

I know that you have a personal reason for wanting to get these processes complete and I know that the transfer database will be updated in October so that, if we don't have an active transfer completely done, we will have to reenter all the data.

That means we are both motivated to get these transfers as far along as possible.

Transfer 78086 proposes a change to the point of diversion only. In other parts of the state a simple point of diversion change, like this one, would not have required advertisement. I have already discussed that with Keith and he has confirmed that this transfer will be advertised.

Here is the Legal Notice Remarks I have so far

to change the point of diversion from the existing location to a new location approximately 750 ft downstream on the Clearwater River between river miles 15 and 16. The proposed diversion will be located in the NESW of Section 7, T 36N, R 3W.

I am having a little trouble getting the database to accept my transfer review memo. But one way or another I will make it and the transfer approval document available to you and Keith.

Michele
