ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, JOHN WESTRA, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-22374 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65A.
2. Rights 65-11257C and 65-22374 when combined shall not exceed the irrigation of 3.2 acres.
3. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
4. Upon notification by the Department the right holder shall maintain a measuring device and/or controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
5. The issuance of this right does not grant any right-of-way or easement across the land of another.
6. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

Witness my hand this 16th day of October, 2012.

JOHN WESTRA
Western Regional Manager
