Re: The Boyd Charles Smith & Jill Johnson Smith Trust - Teton Ranch
Water Supply Bank Applications
Project No. 158-09-2010

Dear Monica:

Enclosed you will find the Water Supply Bank (WSB) applications for Boyd Charles Smith & Jill Johnson Smith Trust - Teton Ranch, along with worksheets, a map and check for \$1500.00

In trying to simplify and organize this application, we've grouped the water rights by color, into 4 different groups. Each color group represents the water rights that share the same allowed acres of irrigation. The Blue and Yellow Groups stacked water rights and a portion of each right has been submitted to the water bank. The Green and Purple Groups have individual acre limitations and we have submitted only a portion of the most junior water right in that group.

Also note that the blue group has a combined diversion limit that is less than the combined diversion. The total diversion submitted to the water bank is 1.07 cfs, not the combined sum of the individual water rights of 1.42 cfs.
