Attachments: Notice Alternative Mitigation Plan SRF 2009.doc

Allen,

I just made one suggested change to the notice in track change. I think it may be better not to mention the scheduled hearing. It could create confusion. We don't need new players attempting to participate in the currently-scheduled hearing.

Gents,

Attached is a draft notice I created from the first notice last July. Please look it over to see if it suits your desires. Do you want to mention the Hearing tentatively set for March 10th? Mary is gone today but can work out the details for publishing tomorrow. I assume we will publish in the same papers we did last time.

Allen,

If you have not already done so, would you please cause the public notice of the new mitigation plan to be advertised as directed in this Order?

Please advise me of the advertising dates.

FYI, it appears that the mandated mediation before Justice Schroeder will likely be happening next week.

Thanks, Dave
