State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-7025

Priority: September 22, 1967 Amount: 3.38 CFS 1252.0 AFA

This is to certify, that IDAHO STATE PENITENTIARY
AG DEPT., BOX 14
BOISE, ID 83707

has complied with the terms and conditions
of the permit issued pursuant to Application for Permit dated September 22, 1967, and
has submitted proof to the Department of Water Resources on September 27, 1974, that
water has been applied to a beneficial use; an examination by the Department indicates
that the works have a diversion capacity of 3.38 cfs of water from a **GROUNDWATER**
source and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Irrigation	03/15 to 11/15	3.38 cfs	1184.8 afa
Domestic	01/01 to 12/31	.50 cfs	67.2 afa
Fire protection	01/01 to 12/31	.50 cfs	
Totals		3.38 CFS	1252.0 AFA

LOCATION OF POINT OF DIVERSION(S): SWSE , Sec. 27, Township 2N, Range 2E
Ada County

PLACE OF USE: Irrigation

APPLICATION FOR EXTENSION OF TIME

RECEIVED

SEP 25 1973

Department of Water Administration

State of Idaho)
County of ADA)

Permit No. 63-7025

Raymond W. May of 2200 Warm Springs Avenue, Boise
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 63-7025.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before November 1, 19 72.

That he has heretofore performed the following work described under said permit:

Nothing with this well until this year. A contract is now under way and will

be completed within the next 90 days to install a pump and a pipe line between

this well and the domestic well. Use as a back up for the domestic well will

be in effect by January 1, 1974. Costing \$ 108,916.

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Are unable to use the well for irrigation until the

Spring of 1974 as the irrigation season will be over before the project

is completed this year.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to January 1, 19 74.

Raymond W. May
(signature) *

Subscribed and sworn before me this 21 day of Sept., 19 73.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant Idaho State Penitentiary
post office address Box 7309 Boise, Idaho
2. Source of water supply underground which is a tributary of _____
3. a. Location of point of diversion is SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 27 Township T.2N
Range R.2E B.M. Ada County; additional points of diversion if any: _____

b. If water is not consumed, it will be discharged into Evaporation lagoon process at a point in NW $\frac{1}{4}$
of NE $\frac{1}{4}$ of Section 28 Township T.2N Range R.2E B.M. _____
4. Quantity to be appropriated:
a. 6 cubic feet per second and/or _____
b. _____ acre feet per annum will be stored.
5. Water will be used for the following purposes:
Fire protection & domestic .5 cfs purpose from Jan. 1 to Dec. 31 (both dates inclusive)
Irrigation 5.5 cfs purpose from April 1 to Oct. 15 (both dates inclusive)
_____ purpose from _____ to _____ (both dates inclusive)
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. pipe to domestic storage tank- pipe to
sprinkler irrigation system

b. Height of storage dam none feet; active reservoir capacity _____ acre feet; total reservoir
capacity _____ acre feet; materials used in storage dam: _____

c. Proposed well diameter is 16 inches; proposed depth of well is 700 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years.
b. Estimated construction cost is \$ 50,000.
8. Description of proposed uses:
a. If water is **not** for irrigation: Standby well for fire protection & domestic use
(1) Give the place of use of water: _____ $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 28 Township T.2N
Range R.2E B.M. SW " 27 " " _____
(2) Amount of power to be generated: none hp under _____ feet of head. _____
(3) List number of each kind of livestock to be watered none _____

* (4) Name of municipality to be served Idaho State Penitentiary, or number of families to be
supplied with domestic water est. eventual population, 1600 people
(5) If water is to be used for other purposes describe: This well will be used principally as
an irrigation well, but will be connected to the domestic water system and will
serve as a standby unit in event of failure of the regular domestic well.

63 7025

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

ROUGH DRAFT

WATER RIGHT LICENSE

License of Water Right No. 63-7025 Priority _____ Amount 3.38 cfs

THIS IS TO CERTIFY, that State of Idaho, Idaho State Penitentiary
of Box 739, Boise, Id., has complied with the terms and conditions of Permit
No. 63-7025 issued pursuant to Application for Permit dated _____,
and has submitted proof to the Department of Water Resources on _____,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 3.38 cfs of water from a groundwater source
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows: *per rules & regs.*

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u> from <u>3/15</u> <u>Apr. 1</u> to <u>11/15</u> <u>Oct. 15</u> at <u>3.38</u> cfs and			<u>1152.9 AF</u>
<u>Domestic</u> from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>.50</u> cfs and			<u>134.4 AF</u>
<u>Fire Prot.</u> from <u>1-1</u> to <u>12-31</u> at <u>.50</u> cfs and			<u>N/A</u>

(both dates inclusive)

Subject, however, to the condition that no more than 3.38 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1287.3 acre feet per year, said waters to be diverted within the SW 1/4 SE 1/4, Sec. 27,
township 2N, range 2E, B.M. in the County of Ada

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

MEMORANDUM

TO: Steve Allred

THRU: Alan Robertson & Murland Packer

FROM: Paul Castelin

SUBJECT: Alternatives for Rehabilitation of Idaho State Penitentiary
Well #4

I've set forth below a number of alternatives for rehabilitation of well #4 at the Idaho State Penitentiary. While the comments are not highly detailed, they are adequate for obtaining estimates of costs for each alternative. Once an alternative is chosen, then is the time for more detailed discussion before any contracts are drafted. I feel the suggestions are workable, based on my limited knowledge of drilling technology, but detailed discussions with a number of major drilling contractors would be invaluable.

In general, the major problem with well #4 is the fact that perforations in the casing at sand and gravel aquifers allow sand and small gravel to enter the casing, causing severe damage to the pumping equipment. The solution to the problem involves preventing the sand from entering the well while maintaining reasonable yields.

A) For the cheapest way to get well #4 operational:

1. Have perforated zones individually developed so that sand samples are obtained and have sand size distribution analysis done.
2. On basis of sand size analysis, design a telescope-size screen to cover each perforated zone, of the particular slot size necessary to retain 40-50% of sand sizes encountered at each perforated interval.
3. Have each screened section developed until little or no sand is produced.

MICROFILMED

January 9, 1975

4. Have well test-pumped to determine best sustained yield with minimum drawdown.

5. Install appropriate pump and motor for required discharge rate and pumping lift. A yield of approximately 1200 gpm with 50-50 feet of drawdown at a pumping lift of 550-600 feet should be expected.

B) For best yield from well #4:

1. Determine whether casing in the well can be pulled, if not, then there are two options: 1) drill a replacement well, 2) use cheaper rehab method outlined above.

2. If casing can be pulled, this should be done and all perforations welded shut.

3. Borehole should be logged to determine best aquifers and their location and thickness. (Hole will need to be fluid-filled).

4. Particle-size samples should be obtained from each prospective aquifer, and a size distribution analysis performed.

5. Design screens for each aquifer so that slot size will retain 40% of particle sizes encountered.

6. Screens should be installed in casing string so that they will be in the proper location ~~since~~ the casing is re-set in the hole. The proper location is as determined from electric logs obtained earlier.

7. Each screened interval should be developed until no sand is produced through the screens.

8. Well should be test-pumped to determine the best sustained yield with minimum drawdown.

9. Install appropriate pump and motor for required discharge rate and pumping lift.

C) If new wells are to be drilled before rehab. of well #4:

1. Be sure an accurate drillers lithologic log is kept, as well as sand samples from each water bearing zone. Location of each aquifer should be as precisely located as possible.

2. Drill a 6 or 8-inch test hole initially to determine aquifer composition and thickness and sand sizes. Correlate this log, if possible with log of well #4, so that proper screen slot sizes for well #4 and the new well can be obtained.

MICROFILMED

January 9, 1975

3. Assuming correlation is excellent between new well log and log for well #4 based on log and sand samples design casing string with proper length and slot size of screen.

4. Proceed as in B(7) above.

The best chance of success in constructing future wells at the site will depend upon the wells being designed by a competent consultant. In my opinion, based upon the geology of the area, it will be next to impossible to construct adequate, trouble-free wells without using screens at all producing zones.

I intend to produce a memo outlining steps to be taken if new wells are to be drilled on the Penitentiary site and will aid in locating favorable sites and designing casing schedules for each if necessary.

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder State of Idaho Corrections Institution
b) Post Office Address P. O. Box 7309, Boise, Idaho 83707
2. Permit Number 63-7025
3. Date of Priority that you are prepared to establish 9-22-67
4. a) Source from which water was appropriated Underground
b) Location of the point of diversion: SW 1/4 SE 1/4, Section 27
Township 2 N., Range 2 E. Boise Meridian, Other points of diversion:
5. a) The amount of water and use to which the water has been applied:
Amount 4 c.f.s. for Irrigation purposes from July 19, 1974 to Aug. 31, 1974 incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount 4 c.f.s. for Domestic purposes from July 19, 1974 to Aug. 31, 1974 incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
b) Total amount appropriated 4.0 cfs and/or acre-feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: By Sparling meter and clock. Test by John L. Hoffmann, Consulting Engineer.
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use:

b) Describe the agreement or understanding by which you take water from the works: _____

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Well casing 16"; Depth of well 770'; 500 HP motor; 1800 G.P.M. pump.

b) Describe the type and size of measuring device which you have installed at your point of diversion: Badger Measure Rite Water Meter

c) Give well driller's name and address and the date the well was completed: Kenneth Witt, 10th Avenue & Karcher Road, Nampa, Idaho.
Well completed: 3-21-68.
8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use: This system is tied into the penitentiary domestic system in case of the failure of domestic well. In an emergency the water could be used to fight fires and furnish domestic water to the penitentiary compound.

Dear Mr. May:

One of the conditions of approval of your water Permit No. 63-7025 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Boise, Idaho 83707

Dear Mr. Evans:

We received your September 4 letter requesting an extension of time within which to submit proof of beneficial use of water on your Permit No. 63-7025. However, before taking action on that request, we need additional information concerning the work that has been done and that is remaining. An extension request form has been enclosed for your use in providing this information.

One difficulty we have in our consideration of an extension, is that the extension approved on October 28, 1972, was granted on the premise that the project was complete except for the installation of the water meter. Your help in resolving this discrepancy would be appreciated.

If you have any questions regarding this matter, please let us know.

Re: Permit No. 63-7025

Idaho State Penitentiary
Box 7309
Boise, Idaho

Gentlemen:

One of the conditions of approval of your water Permit No. 63-7025 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. Keith Higginson

Re: Application No. 63-7025

The Idaho Daily Statesman
300 North 6th Street
Boise, Idaho 83701

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McElowney
Water Rights Clerk

DWM:ks

Enclosure: legal notice

Form 3

63 7025
