RE: Permit No. 72-07450

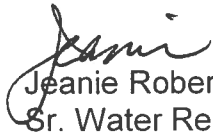

Dear Permit Holders:

The Department of Water Resources sent you an Application for Amendment form on August 14, 2012, for the above referenced Permit. The amendment is required because the field examiner who verified the water use established in connection with your permit reported that one or more elements of your water use differs from the permit. As of this date the Department has not received a response. (This amendment will add the third well to the License and also change the use to Municipal. Note that no changes are required to your other permit, 72-7558, which already has the third well and the use as municipal.)

If I do not receive the signed amendment (and \$100.00 fee) within fourteen (14) days, I will assume you are no longer interested in obtaining a water right license and your permit will be voided. In case the amendment form I sent you has been misplaced, a new one is enclosed.

If you have any questions, please contact me as soon as possible at (208) 736-3033.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
