WATER RIGHT NO. 72-07450

6. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
7. Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
8. The daily diversion volume for non-domestic uses under this municipal right shall not exceed 2,500 gallons per use and the daily diversion volume for domestic uses under this right shall not exceed 13,000 gallons and 1/2 acre of irrigation per dwelling in accordance with Section 42-111, Idaho Code.
9. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire. Any amount of water used to fight a fire will not count against the annual volume limit for this right.
10. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
11. The issuance of this right does not grant any right-of-way or easement across the land of another.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and this 27th day of September, 2012.
