Conditions of Approval Review (csaxton 10-3-12):

- ~~1. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.~~
- ~~2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.~~
3. **102** The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
- ~~6. 069 Failure of the right holder to comply with any condition of approval is cause for the Director to void this permit.~~
- ~~7. 106 Use of water under this approval shall comply with applicable water quality standards of the Department of Environmental Quality.~~
8. **124** Place of use is within the service area of the City of Kuna municipal water supply system as provided for under Idaho Law.
9. **020** Use of water under this right may be affected by an agreement between the protestant and the right holder.
- Modify** The well ~~proposed~~ **identified** as the point of diversion for this water right shall have a casing set at ~~350~~ **400** feet with the annulus between the bore hole and the casing filled with impermeable chip or pumped grout bentonite. *(retained in the event a replacement well is ever required)*
- ~~The right holder shall provide a copy of the well driller's log to the U.S. Bureau of Reclamation upon completion of the proposed well. (File indicates that the permit holders consultant has been in contact with BOR regarding construction of the well. Condition of approval is considered satisfied.)~~
- Modify** The right holder is not authorized to produce water from a production zone shallower than ~~400~~ **350** feet nor deeper than 500 feet. *(retained in the event a replacement well is ever required)*
- Add** **180**
