CONDITIONS OF APPROVAL

1. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
2. Place of use is within the service area of the City of Kuna municipal water supply system as provided for under Idaho Law.
3. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
4. Use of water under this right may be affected by an agreement between the protestant and the right holder.
5. The well identified as the point of diversion for this water right shall have a casing set at 400 feet with the annulus between the bore hole and the casing filled with impermeable chip or pumped grout bentonite.
6. The right holder is not authorized to produce water from a production zone shallower than 400 feet.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 3rd day of October, 2012.
