

CONVERSATION MEMORANDUM

TO: Water Right Permit # 65-13773

FROM: Darla Block

DATE: August 23, 2012

SUBJECT: Proof Due Notice / Unable to Locate Owner of Record / New Owners

On July 31, 2012, the Department mailed a Proof Due Notice certified mail to the address of record with the Department for permit holders (Larry & Lynn Turner).

On August 06, 2012, the Department received the notice back as returned mail marked by the US Postal Service, "Vacant, Unable to Forward". The Turners' phone number of record with the department has been disconnected. I was unable to locate a new address for the Turners.

The 2009 tax lot data indicated new owners of the property associated with this permit. On August 07, 2012, the Department sent a copy of the Proof Due Notice to Trutanich Limited explaining that proof of beneficial use is due, and that an assignment of permit would need to be filed before the department could process a change in ownership for the water right permit.

This afternoon I called Jean Trutanich regarding the proof of beneficial use faxed to the department on August 20, 2012. I explained that there needs to be a \$50.00 license examination fee filed with proof, and an assignment of permit form signed by the Turners in order to change ownership of this permit.

Jean explained that they have not been able to locate the Turners either, and would not be able to get an assignment accomplished. I explained that she could file the proof of beneficial use now, file a notice of change in water right ownership anytime, and the department would process her proof in order to get the permit into the licensed stage of a water right.

I also explained that the water right license would be issued in the names of Larry & Lynn Turner, but once the license is issued the department would then be able to process her Notice of Change in Water Right Ownership changing the ownership of the license into the name of Trutanich Limited.
