1. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with ground water diverted under this right and shall only divert ground water for irrigation under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
2. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
