James,

See below for the email string regarding the missing priority date on Right 75-69A. I think reissuance of the transfer approval document and updating the database will solve the problem. As we discussed, we should include a cover letter indicating that we're simply correcting an omission.

Thanks.

Shelley,

Don't know if you remember Mr. Burns, but he has been looking through IDWR website again and noticed an empty data field for his water rights 75-69A. Looks like the priority date data field was left blank in a recent transfer. Can you have someone fill it in?

Thanks,
Garrick

There was a recent approved transfer on this right, so something may have taken place during the data entry of the transfer.

I'll find out. It sounds like an IT problem.

When you do a search on the external website, it returns a blank for the priority date. My guess is that this is a data entry issue. I don't know what data source this pulls from.

5-1-1888 is shown on the PD, Garrick, so I'm confused. Would you like me to email Mr. Burns?

Sally or Lori,
See email below. Is this something you can help with?
Thanks,
Garrick

Subject: Partial Decree for 75-00069A

Garrick:

While checking the Dept. website on an unrelated matter (to this) I noted that the entry for 69A does not list the priority date for it as it does for the other rights. The date is May 1, 1888 and, as you know, it stems from the 1902 Carmen Cr. adjudication. A partial decree was issued by the District Court on January 31, 2011. I suspect the omission is simply a data entry oversight, but it seems appropriate to make the addition to the record now. Can you tell me who would the appropriate person in the Dept. to contact?

Thanks, John B.
