Dear Mr. Merritt:

You recently approved my transfer application, # 78140. While reviewing the approval document I noticed that the approval document lists 48 total acres, but the application was filed for 49 total acres. In reviewing the application it was noted that the application listed 23 acres in the SWNE and 26 acres in the SENE. I spoke with Corey Skinner of your office and he indicated that the deed I submitted with the application indicated that I only own 25 acres in the SENE, so the transfer was approved for one less acre. During our discussion, it was noted that the place of use described on the application was described incorrectly, and should have listed 23 acres in the SENE and 26 acres in the SWNE. This would then allow a total of 49 acres of irrigation as listed on the application, since I own more than the 49 acres in the two tracts identified on the application.

I would appreciate it if you would consider this letter as a petition for reconsideration and issue a corrected transfer approval with 23 acres in the SENE and 26 acres in the SWNE for a total of 49 acres.

If you have any questions, feel free to give me a call (837-4405).

Thanks for your consideration,
