

MEMORANDUM

Date: September 27, 2012
To: Transfer 78140 File
From: Corey Skinner
Re: Petition for Reconsideration and Approval Correction

Yesterday, September 26th, Verl Bell came into the office and filed a petition for reconsideration relating to recently approved transfer 78140. The petition relates to the approved place of use and total number of acres describing the permissible place of use. Upon review, it appears that the transfer application was incorrectly processed and ultimately approved with a place of use described as...

23.0 acres within the SWNE of Section 27 (T07S, R13E)
25.0 acres within the SENE of Section 27 (T07S, R13E)
Total Acres = 48.0 acres

In actuality, the transfer application should have been processed and ultimately approved with a place of use described as...

26.0 acres within the SWNE of Section 27 (T07S, R13E)
23.0 acres within the SENE of Section 27 (T07S, R13E)
Total Acres = 49.0 acres

It is recommended that a new approval document be issued with a place of use described as...

26.0 acres within the SWNE of Section 27 (T07S, R13E)
23.0 acres within the SENE of Section 27 (T07S, R13E)
Total Acres = 49.0 acres

In addition, condition 206 should reflect a total permissible place of use of 49.0 acres instead of the currently approved 48.0 acres.
