GEORGE OLESON
317 E RICH LN
BLACKFOOT ID 83221

Dear George,

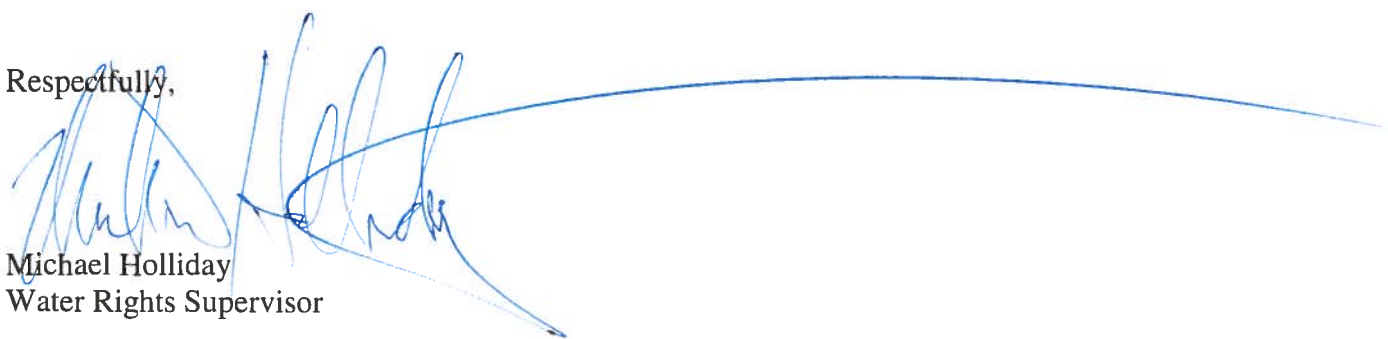

As you may recall from our conversation back in May, when you filed the original transfer application to correct the legal description for the place of use and point of diversion for water right no. 27-10025, we need additional data from you before we can proceed with processing.

After filing the original application you also indicated that you wanted to amend the transfer application to include land on the east side of the canal in the SWSE of section 22. My attempts to contact you by phone to discuss the application have been unsuccessful. Therefore, please provide us with the following items:

1. A notarized statement from the owners of the decreed place of use indicating that they have no interest in water right 27-10025, or evidence from the Bingham County Assessor's office as to the location of parcels RP0437300 and RP0437301 at the time of the partial decree.
2. If you still want to include the land in the SWSE of section 22 in the place of use, you also need to sign and submit an amended transfer application, which I have enclosed for your convenience.

If we do not receive the requested information in 30 days, we will return your application and filing fees, and right 27-10025 will remain in the name of Lila Oleson. If you have any questions regarding this matter, please feel free to contact me at (208)525-7161.

Respectfully,

Michael Holliday
Water Rights Supervisor
