We do not use surface water on this parcel there is no tap here. At one time it was watered by surface but in the 80s or 90s the surface water was moved and used on a different portion of Section 13. It is recorded at the Wilder Irrigation district office in caldwell. The plan is to use the water right to irrigate the orchards, row crops or lawns. from Mar. until Nov. (we request usage until Nov.31 to allow us to fall water orchard or vineyard crops to protect against winter freeze by give the plant a good water after dormancy begins. Yes the domestic should be from January 1 to December 31. I think the attached well log is the log for this well Roger Williamson

Mr. Williamson:

We are in the process of reviewing the above referenced permit and find we have a couple of questions that need resolved before we can advertise this proposal.

Do you have any other water rights for the irrigation of the 10 acres under this permit? Our records show that the Boise Project Board of Control delivers surface water to this property. Do you use surface water on the property when it is available?

Your application requests water for use in 3 homes. Does the irrigation water you have applied for cover the use of water for the lawns in connection with the homes? If not, you may want to increase the amount of irrigation water to cover the lawns. Also, we see that you have applied for a domestic season of use from January 1 through January 31 of each year. We assume that you wish to file January 1 through December 31 for this use. If our assumption is wrong, please advise us.

We need to know what water bearing zone you propose to appropriate from this well. This would be the zone in the well where the pump is setting. I found one well log that may fit the description of this well. I have attached that log to this e-mail for your convenience.

Please submit the requested information for processing to continue. If you have any questions in regard to this request for information, please do not hesitate to contact me at 3342190.

Thank you for your attention to these matters.
