**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 35-14249, 29-14012, 29-14013, 43-13595, 43-13597**

Dear Renter:

I have enclosed a Water Supply Bank Rental Agreement for your review and signature. Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$9,452.80 for 2012** was calculated based on the current rental rate of \$14.00 per acre-foot times a diversion volume of 675.2 acre-feet. Beginning in 2013, the rental fee increases to \$17.00 per acre-foot. A rental fee of \$11,478.40 was calculated for 2013. An annual payment shall be received by the Department prior to the execution of this agreement and prior to March 15 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$9,452.80 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, to my attention within 14 days so I can complete the processing.

If you have any questions, please contact me at (208) 287-4949.

Sincerely,

Nicholas Van Dyke

Sr. Water Resource Agent

2. Rights 35-14249, 29-14012, 29-14013, 43-13595, and 43-13597 when combined are limited to a total diversion rate of 2.28 cfs and the irrigation of 155 acres within the 260 acre place of use described above.
3. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
4. The right holder shall maintain a lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
5. Use of water under this agreement does not constitute a dedication of the water to renter's place of use and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
6. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
7. This rental agreement does not authorize the construction of a well.
8. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
9. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.

**WATER RIGHT NO. 35-14249
WATER SUPPLY BANK RENTAL AGREEMENT**

CONDITIONS OF WATER USE

10. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
11. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
12. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
13. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 acre-feet per acre at the field headgate for irrigation of the lands above.
