REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Permit no. 37-21771 Date proof is due 9-1-2012
Name(s) of permit holder(s) N. Stanley Standal, Jr.

Telephone no. 208-837-4970 Email _____

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none". FERC Approved plans for re-constructing this hydro-electric facility included replacing the original single 85KW Turbine-generator with 3 separate turbine-generators 25KW, 25KW and 20KW capacity. Two 25KW units have been installed and are operating using part of the water right covered under this permit. The development of the third 20KW unit is partially completed. Underground electrical service has been installed, and the generator and some switch gear has been purchased

Costing \$70,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Time constraints and other projects have delayed completion of the reconstruction of this hydro-electric facility. Permit holder has full intentions to finish this reconstruction and put the rest of the water covered under this permit to full beneficial use.

Permit holder(s) request an extension to 9-1, 2012
