E. NARRATIVE/REMARKS/COMMENTS

There are two cabins with a varying number of camp trailers on site during the summer months, generally not more than 4 trailers at a time. The property has been split between the family members. The POB and POU are correct. The spring is used to migrate up to two acres and store water for the trailers and cabins. No running water to cabins, trailers or for migration a water tank is hauled to the poa and taken to cabins.

Has the permit holder met all conditions of permit approval, including any mitigation requirements and/or measuring device installation requirements? ☒ Yes ☐ No If no, what must be done to meet the permit requirements?
