STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 86-2010

1. Name of applicant(s) Tonna Whittlesey, Randall Russell Phone (208) 289-4000
Name connector (check one): ☒ and ☐ or ☐ and/or

Mailing address: 1145 Larch Pl City Kendrick

State ID Zip 83537 Email: ghorse@tds.net

2. Source of water supply Spring (ground water) which is a tributary of N/A

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
38N	01W	03		SW	SW	SW	Latah	ground water	

4. Water will be used for the following purposes:

Amount .02 CFS for stockwater purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 15' long, 4' diameter metal culvert inserted vertically into existing spring box

b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No

c. Proposed well diameter is N/A inches; proposed depth of well is N/A feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? N/A; drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. 20 horses, wild life

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households _____

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
38N	01W	03											17.85						17.85
													S						

Total number of acres to be irrigated: 0

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? _____

10. a. Who owns the property at the point of diversion? Tonna S. Whittlesey
- b. Who owns the land to be irrigated or place of use? Tonna S. Whittlesey
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Please see attachment.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Attachment 1

Item 11

According to local historians this spring box (hand dug well) was developed in roughly 1902. The water was used to supply a steam log mill, a house, and to water livestock. The house was present until roughly 1930 at which time it burned down. The spring box has been maintained and utilized for livestock and wildlife water to current date. In August of 2000 the wood of the spring box was badly deteriorated so a 15' long, 4' diameter perforated metal culvert was inserted vertically into the existing spring box. A 1" bulk head fitting was placed into the culvert just below the water level and a 1" poly pipe was ran underground to a 100 gallon stock tank located about 25' from the spring box. The stock tank overflows into an intermittent stream channel. A fence enclosure was placed around the spring box to assure safety to animals and humans as well as to keep contamination to a minimum.
