Ref. Application for Permit 75-14734

Milton K. @ Gloria H. Eberhard

Dear Mr. Cefalo,

Some additional comments regarding our application to appropriate water in the Upper Salmon River Basin. I appreciate your efforts to promote ESA species recovery.

Our application for water does not impact ESA species recovery. It is waste irrigation water that originates from adjacent water users. The waste water would not be diverted from Carmen Creek and does not return to Carmen Creek.

Sincerely,

Milton K. @ Gloria H. Eberhard
