MEMO TO FILE

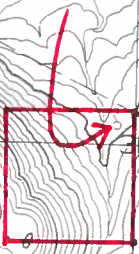

Dayne Spring development was completed and put into service on July 27, 1999. Work was performed by Force Account. Work included exclosure fencing of the spring with watering structures outside the exclosure. The spring head box is 30" x 30" aluminum. The pipeline to the trough is 2" PE, except for one joint of 2" galvanized going into the trough, which is an aluminum powder river style trough.
