RE: Permit Nos. 47-7354 (represented by 47-17578 and 47-17579) and 47-7809

Dear Permit Holders:

The Department of Water Resources sent you Application for Amendment forms on August 10, 2012, for Permit 47-7354, which is now represented by split rights 47-17578 and 47-17579.

The amendments are required because the field examiner who verified the water use established in connection with your permit reported that one or more elements of your water use differs from the permit. As of this date the Department has not received a response.

If I do not receive the amendments within fourteen (14) days, a license will be issued for less than could have been allowed. In case the amendment forms I sent you have been misplaced, new ones are enclosed.

The Department has found that no additional beneficial use of water was developed under Permit 47-7809 above the use authorized under rights 47-17578 and 47-17579. If you believe that you developed a beneficial use of water under Permit 47-7809, please send me supporting documentation within fourteen (14) days.

As of this date, Permit 47-7809 has not been claimed in the Snake River Basin Adjudication (SRBA). In addition to providing evidence of beneficial use you must file an SRBA claim for Permit 47-7809. If I do not hear from you within fourteen days, your Permit 47-7809 will be voided.

If you have any questions, please contact me as soon as possible at (208) 287-4946.

Sincerely,

Michele Edl
Associate Engineer
