E. FLOW CALCULATIONS☐ Additional Computation Sheets Attached

Measured Method: see previous field exam

Well 10A (NENW) measured in 1981 @ 3.0 cfs – WMIS records show 905 gpm or 2.02 cfs

Well 10B (NENE) measured in 1981 @ 3.0 cfs – WMIS records (2 yr. ave) show 850 gpm or 1.89 cfs

Well 10C (NESW) measured in 1981 @ 4.4 cfs – WMIS records (5 yr. ave) show 1619 gpm or 3.61 cfs

Total current WMIS records = **7.52 cfs**Total in 1981 **10.4 cfs**, minus **8.84 cfs** from 36-2129 and **1.35 cfs** from 36-7403 = **0.21 cfs available****F. VOLUME CALCULATIONS**

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 632 \text{ acres} \times 4 \text{ AF/ac} = 2528 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.21 \text{ cfs} \times 246 \text{ days} \times 1.9835 = 102.5 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \mathbf{102.5 \text{ AFA}}$$

2. Volume Calculations for Other Uses: N/A

G. NARRATIVE/REMARKS/COMMENTS

This permit was for additional water (0.4 cfs) from three existing wells on irrigated acres covered by two other rights; 36-2129 and 36-7403. A field exam was conducted on the three wells in 1981 which measured a system capacity of 10.4 cfs. The two other rights have a combined diversion limit of 10.19 cfs (limited to what was applied for) and 2528 AF for the irrigation of 632 acres. Proof for this permit was submitted in 1992. Current WMIS records show the three wells now are producing a total of 7.52 cfs. Since there was an additional 0.21 cfs available from the previous field exam, we could allow 0.21 cfs for this right. Only a total of 632 acres appear to be irrigated, instead of the 640 acres applied for, same as the other two overlapping rights and the full volume of 2528 AF for the 632 acres is already provided for. This right should be limited to 632 acres, 10.4 cfs and 2528 AF when combined with 36-2129 and 36-7403. The owners of the other two rights are Minidoka Farms LLC. An ownership change and fee were solicited and received from Minidoka Farms LLC so the License can be issued directly to them.

Have conditions of permit approval been met? ☒ Yes ☐ No

Subject: Water Rights in Minidoka County Idaho

Hi Amy,

I was given your name, email and phone number from the Columbia Illinois office as the person to talk to about your Idaho Water Rights.

Our records show that Minidoka Farms LLC purchased property in Minidoka County from Don Taylor in April of 2011. We received an ownership change in May of 2011 for water rights 36-2129 and 36-7403 and the ownership of the two rights was subsequently changed. There was also an outstanding Permit on the same property using the same three wells as the other rights. A permit is an unperfected water right and considered personal property in Idaho and must be 'assigned' to someone using a separate form. When the permit becomes a License, it is then appurtenant to the property, which you now own. We are getting ready to issue the License for 36-8133 and since you now own the property, we **could** issue the License directly to Minidoka Farms LLC if you submit the enclosed ownership change form and the \$25.00 filing fee. This form can also be accessed at our website through this link:

http://www.idwr.idaho.gov/RulesStatutesForms/WaterRights/PDFs/NOTICE_OF_CHANGE_OF_WATER_RIGHT_OWNERSHIP.pdf

(We can use our current copy of the required Warranty Deed submitted with the previous ownership change, of which I have also enclosed a copy.)

Please feel free to give me a call at (208) 736-3033 if you have questions.

Renee Brown (SPF) called and said Amy had forwarded this message to her. SPF had done a B.U. field exam in 2011 but company never submitted cause they were still in the process of buying. She will advise them to file O/C. (Their B.U. exam came up with the same results as I did.)
