Re Permit No. 63-12377

Dear Mr. Cantrell:

The permit referenced above was issued to you for mining uses from Muddy Creek. The field exam is required by Idaho law before a permit can be licensed at which time it becomes a water right. The license is the end product needed for continued use of this water.

Please call me at 208.334.2190, by July 13, 2012, to set an appointment for the exam. I'll gather some information about the diversion and delivery system at that time in preparation for the exam. Please make available at the field exam the permits, the plan of operation, or other required by governmental entities. Thank you.

Sincerely,
