Hi Morgan and Brian,

I just want to send this quick FYI to you about the Ellsworth Angus/IWRB rental for 74-2320 and 74-15190. Back in April of this year, Right No. 74-15190 was partially decreed as disallowed by the SRBA District Court. The IWRB rents both 74-2320 and 74-15190 from the rightholder and the rental was renewed for the 2012 season showing both water rights. However, Right No. 74-15190 does not appear to actually add increased diversion rate, volume or "acres" to the rental, so I don't think it makes much difference, nor does it make much sense to issue an amended rental agreement for a season that's almost done.

In subsequent years, though, the rental agreement will just be authorized for 74-2320. I don't know if this does anything to your programs or the IWRB agreement with Ellsworth Angus, but I just thought I'd let you know. I'll also be putting a note in both water right files.
