DOC.pdf

Mr. Backus,

I have attached a PDF copy of your license. The entire backfile can be seen by querying our website <http://www.idwr.idaho.gov/> There is a quick link on the right hand side which will take you to the query page.

Once on the page, the quickest query for you would be a search for a specific water right. Click on the radio button in front of that option. That menu will expand.

Click on the box in front of Claim/Water Right/Basin. Your water right is basin #65; sequence #13335. You don't have a split suffix. Fill in the appropriate boxes, save, and then click the box

Start Search located to the far right of the screen.

A table listing your water right will appear. Under the far left column with the heading **Options** are two more hot links.

Details will give you the a 'readers digest' summary of the right

More Options will show you the scanned images, the backfile, of your water right file.

Give the query a try and call any us at 287 4800 if you have questions about what you see or problems with getting a successful query.

Sincerely,
Michele Edl
